I'm a elderly person living alone, it's two in the morning, and I'm writing this note while the lights are still on, to protest, in what seems to me to have been a totally inadequate response to the weather conditions we all have just experienced

I, alone with most other Texans have had to tolerate deplorable conditions due to the cold!

I spent nights with layers of cloths, coat and blankets to protect myself from the cold for hours at a time because there was no power!

I know of people, on the other hand, that had no outages at all, where is the equality in that!?

All of this, while a pandemic is in progress!

I hope something can be done to address the reasons why this happened, and necessary changes can be made to see that it won't happen again!

disgusted
