Re: Smart Electric Meters

Dear Commission:

On May 28, 2012, Enron installed a smart meter at my residence. I was told that I had no choice in the matter.

Received my electric bill from TXU on 6-11-12. The smart meter was in effect for eight (8) of the thirty-two (32) days of the billing period but represented 45% of the usage (KWH). My bill will double at this rate. This is a scam.

Respectfully request that all citizens of Texas be allowed to choose if they want this device.
