CUSTOMER PROTECTION

SUBJECT: RECONFIRMED SM OP OUT
REFERENCE: ACCOUNT #10455025-4

This is to reconfirm our April-2012 letter of "non consent", and our May-2014 "intention to Op Out" of ANY kind of advanced meter on our property.

Our health and wireless devices have been negatively affected by our neighbors "smart meter" which beams directly into our dining room window. It cracked and shattered less than three months after that meter installation. We have auto immune and heart conditions which are aggravated by these devices, and we hope the OP OUT is publicly announced so that long suffering consumers will know their legal options regarding these flawed devices.

We still consider it extortion to force us to pay for something we don't need, can't afford, or did not request. Senior citizens are taking a medical and financial hit because of the overreach of both the PUC and the big electric consortiums. Hopefully, future court cases will absolve them of financial hardships and protect our legal rights.

For the record, we have NOT seen a meter reader in our neighborhood in over 12 years, so we will be reading our own meter to determine any fraud or overbilling. In fact, considering our hi tech age, which is so valued, why can't we take a photo of our meter and send it directly to our electric carrier? Could be they need more money for their fancy offices and super over inflated corporate salaries?? After all, they have been paid for these devices x 3.....how many more ways can they fraud consumers?

Respectfully,

Byron & Nancy Lochridge
