BY AEP TEXAS INC.

AEP Texas Inc. (“AEP Texas” or “Company”) hereby publishes NOTICE that it filed with the Public Utility Commission of Texas (the “Commission”) on May 23, 2019, the NON-STANDARD TRUE-UP FILING OF AEP TEXAS INC. PURSUANT TO THE FINANCING ORDER IN DOCKET NO. 32475. The filing seeks approval of transition charge rates to be calculated and applied beginning with the first billing cycle for the month of September 2019, pursuant to the Non-standard True-up provisions of the order issued by the Commission on June 21, 2006, in Docket No. 32475, *Application of AEP Texas Central Company for A Financing Order* (the “Financing Order”) and Sections 39.003 and 39.307 of the Texas Utilities Code. Customers potentially affected include those retail customers, whether or not currently receiving transmission and/or distribution service from AEP Texas – Central Division (formerly AEP Texas Central Company), whose facilities, premises and loads are located in AEP Texas’s certificated service area (formerly TCC’s certificated service area) and are being served or have been served by AEP Texas (formerly TCC) at any time on or after May 1, 1999. This filing only affects the AEP Texas – Central Division. The filing has been assigned Docket No. 49553.

On October 11, 2006, Transition Bonds were issued under the Financing Order. The Financing Order establishes how the annual costs permitted to be recovered through transition charges are allocated among customer classes. The Non-standard True-up provisions of the Financing Order permit adjustment of the transition charges for each customer class if the forecasted billing determinants for any one or more customer classes are projected to decrease by more than 10 percent from the billing determinants for the 12 months ending August 31, 2005 (“base period”). The billing determinants for the Commercial and Small Industrial-Energy class are forecasted to decrease by more than 10 percent for the 12 months ending August 2019 when compared to the base period.

If the Non-standard True-up is approved, transition charge rates applicable to all retail customer classes will be affected. The proposed rates for the transition charge classes are as follows:

<u>Transition Charge Class</u>	<u>Transition Charge Rates</u>
Residential	\$ .008816 per kWh
Commercial and Small Industrial – Energy	\$ .019294 per kWh
Commercial and Small Industrial – Demand	\$ 2.280098 per kW or kVa
Large Industrial – Firm	\$ .942781 per kW or kVa
Large Industrial – Non-Firm	\$ 2.258153 per kW or kVa
Standby – Firm	\$ .218750 per Daily kW or kVa
Standby – Non-Firm	\$ .325274 per Daily kW or kVa
Municipal and Cotton Gin	\$ .013931 per kWh
