1. Provide the facility name and unit name of each generating unit that is jointly owned. For each such unit, provide the names of the joint owners and their respective ownership percentages.

NOT APPLICABLE

2. Provide the facility name and unit name of each generating unit that is owned but not controlled. For each such unit, provide the name of the controlling party and briefly describe the nature of the other party's control of the unit.

NOT APPLICABLE

3. Provide the facility and unit name of each generating that is located on the boundary between two power regions (i.e., reliability councils) and able to deliver electricity directly into either power region. For each such unit, provide the total energy sales to each power region during the preceding year.

Kiowa Power Partners, LLC has the ability to deliver electricity into the ERCOT and SPP power regions. In the past year (2014), 2,819,110 mwhrs were delivered to ERCOT and 0 mwhr was delivered to SPP.

4. If the reporting party is subject to PURA Sec. 39.154(e), provide the facility name and unit name of each "grandfathered" unit that is located in an ozone non-attainment area. Attach to this report copies of any applications to the Texas Natural Resources Conservation Commission (TNRCC) for a permit for the emission of air contaminants related to the grandfathered units. Also attach a written description of the progress made since the last Generating Capacity Report on achieving approval of each such TNRCC permit.

NOT APPLICABLE

5. For each power region (i.e., reliability council) in Texas in which the reporting party owns generation facilities, identify the amount of transmission import capability that has been reserved and is available to import electricity during the summer peak into the power region from generating facilities that are owned by the reporting party or its affiliate in another power region.

NOT APPLICABLE
