## REPORTING FORM FOR GENERATING CAPACITY REPORTS

Provide the legal name of the party filing this report Port Arthur Steam Energy LP

Provide the name, company, and telephone number of the person who may be contacted for clarification of information contained in this report: Ted Boriack, Port Arthur Steam Energy LP, (361) 443-2547

The Reporting Form for Generating Capacity Reports consists of this cover sheet, the attached four tables, and an affidavit. Please review the *Instructions to the Reporting Form for Generating Capacity Reports* before completing this reporting form.

This reporting form and the instructions may be obtained from the Commission's Central Records Division or downloaded from Commission website at <http://www.puc.state.tx.us>. Information may be inserted in the form electronically. As necessary, reply spaces may be expanded and/or rows may be added to the tables in order to provide the information requested.

The completed report must be filed with the Public Utility Commission of Texas, Attention: Filing Clerk, Public Utility Commission of Texas, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas, 78711-3326. Submit 6 copies, including the original.

Pursuant to PUC Substantive Rule § 25.91

### Generating Capacity Reports – Table 3

[illegible]

**Generating Capacity Reports – Table 4**

1. Provide the facility name and unit name of each generating unit that is jointly owned. For each such unit provide the names of the joint owners and their respective ownership percentages.  
  
Port Arthur Steam Energy LP owns the 5 MW generating unit which is the only generating unit at this facility. AIP/PASE LLC is a 90% general partner of Port Arthur Steam Energy LP. Integral Power, LLC is a 10% limited partner of Port Arthur Steam Energy LP.
2. Provide the facility name and unit name of each generating unit that is owned but not controlled. For each such unit, provide the name of the controlling party and briefly describe the nature of the other party's control of the unit.  
  
Not applicable -- Port Arthur Steam Energy LP owns no generating units which it does not control.
3. Provide the facility and unit name of each generating that is located on the boundary between two power regions (i.e., reliability councils) and able to deliver electricity directly into either power region. For each such unit, provide the total energy sales to each power region during the preceding year.  
  
Not applicable -- the facility is not located on the boundary between two power regions.
4. If the reporting party is subject to PURA Sec. 39.154(e), provide the facility name and unit name of each "grandfathered" unit that is located in an ozone non-attainment area. Attach to this report copies of any applications to the Texas Natural Resources Conservation Commission (TNRCC) for a permit for the emission of air contaminants related to the grandfathered units. Also attach a written description of the progress made since the last Generating Capacity Report on achieving approval of each such TNRCC permit.  
  
Not applicable -- the facility has no "grandfathered" units.
5. For each power region (i.e., reliability council) in Texas in which the reporting party owns generation facilities, identify the amount of transmission import capability that has been reserved and is available to import electricity during the summer peak into the power region from generating facilities that are owned by the reporting party or its affiliate in another power region.  
  
Not applicable -- no other generating facilities in another power region are owned by the reporting party or its affiliate.
