APPLICATION OF ENTERGY GULF §
STATES, INC. FOR APPROVAL OF §
PRICE TO BEAT FUEL FACTOR §
§

PUBLIC UTILITY COMMISSION
~~OF TEXAS~~
OF TEXAS

**REPLY OF ENTERGY GULF STATES, INC.
TO CITIES' FOURTEENTH REQUEST FOR INFORMATION**

Now comes, Entergy Gulf States, Inc. ("Entergy Gulf States" or "the Company") and files this its Reply to Cities' Fourteenth Request for Information. The response to such requests are attached hereto and are numbered as in the request. An additional copy is available for inspection at the Company's office in Austin, Texas.

Entergy Gulf States believes the foregoing responses are correct and complete as of the time of the responses, but the Company will supplement, correct or complete the responses if it becomes aware that the responses are no longer true and complete, and the circumstances are such that failure to amend the answer is in substance misleading. The parties may treat these responses as if they were filed under oath.

Respectfully submitted,

L. Richard Westerburg, Jr. *RL*

ENTERGY GULF STATES, INC.
PUBLIC UTILITY COMMISSION OF TEXAS
Docket No. 24336 EGSI's PTB Fuel Factor

Response of: Entergy Gulf States, Inc.
to the Fourteenth Set of Data Requests
of Requesting Party: Cities

Prepared By: Patrick J. Cicio/Robert R.
Cooper
Sponsoring Witness: Patrick J.
Cicio/Robert R. Cooper
Beginning Sequence No. LR2810
Ending Sequence No. LR2810

Question No.: CITIES 14-13

Part No.:

Addendum:1

Question:

[30% RB] – Please admit or deny that the 300 Mw of contingent purchases for the summer of 2002 and 2003 contained in Docket No. 24336 corresponds to the level of unit contingency power purchased for the summer of 2001 obtained from the 30% of River Bend acquired from Cajun. To the extent the Company's response is to deny, then provide a full and detailed explanation and all corresponding support and justification for such denial.

Response:

Denied. The output of the unregulated River Bend 30% is slightly less than 300 MW.

Addendum 1:

As noted in the Company's response to Cities 6-5, the 300 MW unit-contingent purchase modeled by the Company is limited to a weekday 5x16 on-peak purchase. Historical purchases from the River Bend 30% included on-peak, off-peak and weekend (7x24) power, as shown in the Company's response to Cities 14-10.
