1 EXAMINATION BY MR. FONTHAM:

2 Q. If you understand the question.

3 A. Can you restate the question?

4 Q. Yes. Are there differences in
5 terms of the time commitments and
6 resources needed for refueling the
7 outages at pressurized water reactors as
8 opposed to boiling water reactors?

9 A. I would say each circumstance
10 could be unique, so I would have to say I
11 don't know in general.

12 Q. You don't know in general, but
13 you think in particular circumstances
14 there might be differences in any
15 reactor's outage. Is that fair?

16 A. Right. Yes.

17 Q. But you don't know of anything
18 that you would ordinarily expect just
19 because one reactor's a pressurized water
20 reactor versus boiling water reactor,
21 that there's going to be an automatic
22 difference in the commitment or resources
23 needed?

24 A. Well, there are differences
25 between the two reactor types so there
