**ERCOT'S FINAL CORRECTED REPORT ON
THE "4 CP" COINCIDENT PEAK LOAD IN THE ERCOT REGION**

ERCOT has discovered it made an error in its Report filed on October 14, 2002, in regards to the loads of Denton Municipal Electric, City of Garland, and Greenville Electric Utility System, which were originally corrected in the Report filed by ERCOT on January 24, 2002. These loads have been increased for the June and July 2001 peak days to reflect their portions of the Gibbons Creek plant generation, and wherein all generation from the Gibbons Creek plant is reported and allocated to the proper entity. ERCOT inadvertently failed to carry forward those corrections in the October 14 Report. In addition ERCOT has discovered it had incorrectly applied loss adjustment factors to the load reported by Brazos Electric Power Cooperative for June and July of 2001. The Cooperative reported its actual load to ERCOT, so the loss adjustment factors were not appropriate. This Final Corrected Report reflects these corrections.

Respectfully Submitted,

Mark A. Walker
