P.O. Box 13326  
Austin, TX 78711-3326

Ladies and Gentlemen:

Please consider this letter my motion to intervene in the above referenced proceeding. As the owner of an affected property, I have concerns regarding the necessity and the routing of the proposed transmission line. I would like further clarification of the process used to arrive at the current route of this line, and the decision to dedicate a new and separate right of way for this project.

I also question the necessity of this project due to the report of ERCOT which deemed that this expansion was not necessary to alleviate "...existing or potential transmission and distribution constraints and system needs within ERCOT."

My concerns are based on future property value and, as a customer of GVEC currently and potentially in the future, on responsible, sustainable, and value based system planning.

Thank you for your attention to this matter.

Sincerely,

*Betty Jo Parker*
