PUBLIC UTILITY COMMISSION
FILING CLERK

ORDER NO. 2
GRANTING MOTION TO INTERVENE OF GALEN A. MOELLER

Application. On December 31, 2002, the LCRA Transmission Services Corporation and co-applicant West Texas Utilities Company (LCRA and WTU) filed an application to secure a certificate of convenience and necessity (CCN) to build a new double-circuit capable 138-kV transmission line that will cut in the Corporations' Twin Buttes Switching Station to the existing 138-kV transmission line between WTU's Big Lake Substation and the San Angelo Power Station (SAPS). The Corporation's preferred route, one of 10 alternate routes for this project, would include a routing deviation for the previously certificated Morgan Creek-Twin Buttes-Red Creek-Comanche 345-kV transmission line in the vicinity of the Twin Buttes Switching Station. The proposed project is located entirely within Tom Green County. The Corporation proposed to own this transmission line while WTU will operate and maintain the facilities under a multi-year agreement.

Motion to Intervene. On January 6, 2003, Mr. Galen A. Moeller filed a request to intervene in the above-referenced proceeding. Mr. Moeller is a landowner affected by LCRA and WTU's application for construction of a transmission line. Mr. Moeller appears to have a justiciable interest that may be adversely affected by the outcome of this proceeding.

No objections to this request to intervene have been filed. Accordingly, Mr. Moeller's request to intervene is granted pursuant to P.U.C. PROC. R. 22.103(b).

SIGNED AT AUSTIN, TEXAS the 17th day of January 2003.
