Posner Telecommunications, Inc.

January 7, 2004

Public Utility Commission of Texas  
Attn: Central Records Filing Clerk  
1701 North Congress Avenue  
Austin, Texas 78701

Re: Project No. 28691

Dear Sir or Madam:

In response to the above-referenced project, this letter serves to advise the Public Utility Commission of Texas ("PUC") that Posner Telecommunications, Inc. (the "Company") is still in the process of entering the start-up phase of its CLEC operations in Texas. As such, the Company does not currently have any employees for its CLEC division and therefore understands that it qualifies for a waiver of the reporting requirements in this project.

Because the Company has not launched its CLEC services in Texas, it has not yet filed a plan pursuant to PURA §52.256(b). However, the Company submits that at such time that it begins to offer CLEC services, it will timely file such plan with the PUC and adhere to all future annual reporting requirements in compliance with the PUC's rules.

Please contact me at 210.497.4214 or via e-mail at [rcantu@posnertelecom.com](mailto:rcantu@posnertelecom.com) with any questions or further requirements regarding this matter. Thank you.

Sincerely,

**POSNER TELECOMMUNICATIONS, INC.**

Rick Cantu  
Director of Regulatory Affairs
