PUBLIC UTILITY COMMISSION  
FILING CLERK

This letter is in reference to DOCKET # 28813. I feel that cap rock Electric does not need this increase. This company needs to be regulated. I feel this company been too high on Prices. They have already broken me trying to pay their high dollar fees and electric now. I have several times incur \$100.00 plus distribution charges. This to me is not right. Please do not give this company an increase. They need to be investigated. I do not have a choice who or what company I can use. I can say if I did it would not be this company.

Thank You

  
Robert Young
