AEP TEXAS CENTRAL COMPANY'S RESPONSE TO TEXAS LEGAL SERVICES CENTER'S AND TEXAS ROSES' FIRST REQUEST FOR INFORMATION

Question No. 1:

With respect to TCC's Hard to Reach Standard Offer Program (HTR SOP), please provide by year for each of the program years 2000-2003, and for the test year, the following information: a list of energy efficiency service providers (EESPs) participating in the standard offer program, copies of all inspection reports of installed measures, a brief description of all measures installed, and the total amounts of incentives paid for each measure.

Response No. 1:

Following is a list of participating EESPs:

2000

The program was not available.

2001

Quality Conservation Services, Inc UCONS SESCO Winegard Energy

2002

Custom Distributors
TEDCO Energy Services
UCONS-WA, LLC
Venture Construction Company

2003

AC Distribution
Custom Distributors
Golden Harvest Sanctuary of the Lord Jesus Christ
Pierce Duct Blasting and Air Infiltration
Quality Conservation Services, Inc.
SESCO, Inc.
Venture Construction Company
Winegard Energy, Inc
Accurate Assessment Services, LLC
Brazos Valley Services
Energy Management Specialists
Great America Insulation
Texenergy, Inc.

Test Year

AC Distribution
Custom Distributors
Energy Management Specialist, Inc.
Golden Harvest Sanctuary of the Lord Jesus Christ
Great America Insulation
TEDCO Energy Services
Texenergy, Inc.
UCONS-WA, LLC
Venture Construction Company
Pierce Duct Blasting and Air Infiltration
Quality Conservation Services, Inc.
SESCO, Inc.
Winegard Energy, Inc
Accurate Assessment Services, LLC
Brazos Valley Services

Attached please find copies of all inspection reports of installed measures and a brief description of all measures installed. Incentives are not calculated or paid based on each measure installed. Accordingly, TCC has not tracked payment of incentives in the manner requested and the information is not available.

Prepared By: Pam D. Osterloh Title: Senior DSM Coordinator Sponsored By: Billy G. Berny Title: Manager, DSM Compliance

SOAH Docket No. 473-04-1033 Docket No. 28840 TLSC/ROSE's 1st, Q. # 1 Attachment Page 1 of 98

Air Infiltration: the reduction of unwanted air infiltration of a residence with electric air conditioning through the installation of caulking and weather-stripping, and sealing up air bypasses in the structure.

Ceiling Insulation: insulation added to the ceilings of a residence with electric air conditioning that has little or no attic insulation so that the final insulation value for the entire ceiling area is R-30 or greater

Compact Fluorescent Lamps (15 W): a 15-watt CFL installed in a light fixture that is rated for a 40-watt incandescent light, that holds no more than three lights and has a daily usage of at least 3 hours per day.

Compact Fluorescent Lamps (20 W): a 20-watt CFL installed in a light fixture that is rated for a 60-watt incandescent light, that holds no more than three lights and has a daily usage of at least 3 hours per day.

Compact Fluorescent Lamps (23 W): a 23-watt CFL installed in a light fixture that is rated for a 75-watt incandescent light, that holds no more than three lights and has a daily usage of at least 3 hours per day.

Duct Efficiency Improvement: the reduction of unwanted air loss and/or air entry of a duct system in a residence with electric air conditioning by finding and sealing locations in the supply and return duct system that allow such unwanted air loss or air entry.

Faucet Aerators: all faucets in a residence with electric water heating replaced with new faucet aerators rated at no more than 1.5 gallons per minute

Low-Flow Showerheads: new showerheads rated at no more than rated at no more than 2.0 gallons per minute replacing existing showerheads that have a pre-installation flow rate of at least 2.5 gallons per minute.

Water Heater Jackets: an insulation blanket with an R-value of at least R-6.7 that completely covers the entire top and side of an electric water heater.

Water Heater Pipe Insulation: insulation with a minimum thickness of ¾ inches, held in place with a permanent attachment method and covering at least the first 5 feet of both the hot and cold water lines of an electric water heater.
