2011 Workforce and Supplier Diversity Report
Ganado Telephone Company, Inc.
Project No. 30240

Describe the specific initiatives, programs, and activities undertaken under the plan during the preceding year:

Ganado maintains a commitment to employ a diverse workforce with a focused emphasis placed on recruiting, training, and employing individuals with the education and skill-sets needed from within the local community.

Ganado strives to utilize historically underutilized businesses ("HUBs") for the procurement of goods and services, especially when the HUB is affiliated or located within its local or surrounding communities. The Company strives to stay abreast of the availability of certain products, services and businesses that qualify under the HUB definition through community resource participation and involvement and through use of the state's HUB directory. The Company also strives to communicate to the HUB community the opportunities for doing business with Ganado. This initiative will continue to be promoted by local participation and communication with organizations that HUBs belong to, as well as posting of applicable information for HUBs that are independently investigating products or contract opportunities.

Ganado also intends to utilize small businesses other than those defined as HUBs in the procurement of goods and services. With the Company's emphasis on utilizing and promoting local or surrounding area business economic growth, Ganado plans to continue its involvement in local, county, and state organizations that promote the use of small businesses.

Listed below are Ganado's specific programs and activities to achieve the initiatives stated above, and the progress of each during 2011.

1. Identify local organizations with minority membership emphasis and communicate through these organizations employment opportunities with the Company.
 - a. Ganado was unable to identify any local organization with minority emphasis during 2011, but will continue with its effort to do so in the future.
2. Identify local organizations with female membership emphasis and communicate through these organizations employment opportunities with the Company.
 - a. Ganado was unable to identify any local organizations with female membership emphasis during 2011, but will continue with its effort to do so in the future.
3. Identify local educational institutions, and communicate through the educational employment outreach programs for employment opportunities available for minority and female students. Attempt to work with educational institutions to establish a work-for-credit intern program. These types of programs may be established through the local high school and community or surrounding area colleges.

Ganado Telephone Company, Inc.
Project No. 30240

- a. Ganado was unable to identify any local educational institution with outreach programs during 2011, but plans to continue this effort next year.
- 4. Offer available work-related training to employees.
 - a. Ganado utilized industry provided technical and commercial training for employees during 2011.
- 5. Offer available advancement opportunities to employees.
 - a. Ganado's workforce was reduced by one employee during 2011.

Make an assessment of the success of each of the specific initiatives, programs, and activities listed above:

Ganado, whenever possible, contracts with local businesses to provide the goods and services that are available in Ganado's serving area and surrounding communities. At this time, Ganado is not engaged in any business partnerships or joint ventures. Initiatives in this area will be taken under consideration by Ganado's management and its Board of Directors. If no conflict with current Company policy exists, Ganado may seek to incorporate this initiative into its future business plans.

Describe the initiatives, programs, and activities the utility will pursue during the next year to increase the diversity of its workforce and contracting opportunities for small and historically underutilized businesses:

The management and employees of Ganado will continue to seek opportunities to make progress in the areas of diversifying the workforce and utilizing the products and services of small and historically underutilized businesses. However, our commitment to employing and purchasing within the rural communities we serve, when and where possible, far outweighs attempting to achieve an improved statistical number. As a small, rural telephone company, we have and must recognize a fiduciary duty and responsibility to our Board of Directors, subscribers and community neighbors to make good, sound economic policy decisions as well as our community responsibility to purchase goods and services within our own communities when possible. By the very nature of the rural area we serve, we are sometimes limited in the local availability of certain telecommunications equipment and products and must go outside our communities for these mandatory purchases. Ganado, whenever possible, contracts with local businesses to provide the goods and services that are available in the Company's serving area and surrounding communities.

Project No. 30240**

State the specific progress made under the plan filed by the utility:

Ganado is a small and rural company that has used its modest procurements to benefit small business and the community. Ganado has made progress in the area of workforce diversity and utilization of HUBs and Small Business. It is difficult to assess these objectives since employment is stable and contracting opportunity is limited. Ganado has implemented business practices to communicate the diversity plan to minorities and females, as well as HUBs and Small Business, regarding employment and contract opportunities.

The Company believes its workforce is stable with the possibility of moderate growth within the foreseeable future.
