2012 Workforce and Supplier Diversity Report
La Ward Telephone Exchange, Inc.
Project No. 30240

Describe the specific initiatives, programs, and activities undertaken under the plan during the preceding year:

La Ward Telephone Exchange, Inc. ("La Ward" or "Company") maintains a commitment to employ a diverse workforce with focused emphasis placed on recruiting, training, and employing individuals with the education and skill-sets needed from within the local community.

La Ward strives to utilize historically underutilized businesses ("HUBs") for the procurement of goods and services, especially when the HUB is affiliated or located within its local or surrounding communities. The Company strives to stay abreast of the availability of certain products, services and businesses that qualify under the HUB definition through community resource participation and involvement and through use of the state's HUB directory. The Company also strives to communicate to the HUB community the opportunities for doing business with La Ward. This initiative will continue to be promoted by local participation and communication with organizations that HUBs belong to, as well as posting of applicable information for HUBs that are independently investigating products or contract opportunities.

La Ward also intends to utilize small businesses other than those defined as HUBs in the procurement of goods and services. With the Company's emphasis on utilizing and promoting local or surrounding area business economic growth, La Ward plans to continue its involvement in local, county, and state organizations that promote the use of small businesses.

Listed below are La Ward's specific programs and activities to achieve the initiatives stated above, and the progress of each during 2012.

1. Identify local organizations with minority membership emphasis and communicate through these organizations employment opportunities with the Company.
 - a. La Ward was unable to identify any local organization with minority emphasis during 2012, but will continue with its effort to do so in the future.
2. Identify local organizations with female membership emphasis and communicate through these organizations employment opportunities with the Company.
 - a. La Ward was unable to identify any local organizations with female membership emphasis during 2012, but will continue with its effort to do so in the future.
3. Identify local educational institutions, and communicate through the educational employment outreach programs for employment opportunities available for minority and female students. Attempt to work with educational institutions to establish a work-for-credit intern program. These types of programs may be established through the local high school and community or surrounding area colleges.

La Ward Telephone Exchange, Inc.
Project No. 30240

- a. La Ward was unable to identify any local educational institution with outreach programs during 2012, but plans to continue this effort next year.
- 4. Offer available work-related training to employees.
 - a. La Ward utilized industry provided technical and commercial training for employees during 2012.
- 5. Offer available advancement opportunities to employees.
 - a. La ward's workforce remained stable through 2012.

Make an assessment of the success of each of the specific initiatives, programs, and activities listed above:

La Ward, whenever possible, contracts with local businesses to provide the goods and services that are available in La Ward's serving area and surrounding communities. At this time, La Ward is not engaged in any business partnerships or joint ventures. Initiatives in this area will be taken under consideration by the management and Board of Directors. If no conflict with current Company policy exists, La Ward may seek to incorporate this issue into its future business plans.

Describe the initiatives, programs, and activities the utility will pursue during the next year to increase the diversity of its workforce and contracting opportunities for small and historically underutilized businesses:

The management and employees of La Ward will continue to seek opportunities to make progress in the areas of diversifying the workforce and utilizing the products and services of small and historically underutilized businesses. However, our commitment to employing and purchasing within the small communities we serve, when and where possible, far outweigh attempting to achieve an improved statistical number. As a small, rural telephone company, we have and must recognize a fiduciary duty and responsibility to our Board of Directors, subscribers and community neighbors to make good, sound economic policy decisions as well as our community responsibility to purchase goods and services within our own communities when possible. By the very nature of the rural area we serve, we are sometimes limited in the local availability of certain telecommunications equipment and products and must go outside our communities for these mandatory purchases. La Ward, whenever possible, contracts with local businesses to provide the goods and services that are available in the Company's serving area and surrounding communities.

State the specific progress made under the plan filed by the utility:

La Ward's management and employees continue to seek opportunities to make progress in the areas of diversifying the workforce and utilizing the products and services of small and historically underutilized businesses. However, La Ward maintains its strong commitment to employing and purchasing within the rural and remote communities we serve, when and where possible. Because of the Company's rural service areas, we are sometimes limited in the local availability of certain telecommunications equipment and products and must go outside our communities for these mandatory purchases. La Ward, when possible, contracts with local businesses to provide the goods and services that are available in the Company's rural serving area and neighboring communities.

The Company believes its workforce will remain relatively stable or with the possibility for moderate growth within the foreseeable future.
