(8) **Other** – Any commodity or service not covered by the above categories.

**WORKFORCE AND SUPPLIER DIVERSITY FORM  
COMPANY INITIATIVES**

**(1) Describe the specific initiatives, programs, and activities undertaken under the plan during the preceding year:**

YK Communications ("YK Communications" or "Company") has zero employees. YK Communications' job functions are filled by employees of its parent company Ganado Telephone Co., Inc. ("Ganado"). Ganado charges YK Communications for time spent working on non-regulated tasks and projects.

YK Communications strives to utilize historically underutilized businesses ("HUBs") for the procurement of goods and services, especially when the HUB is affiliated or located within its local or surrounding communities. The Company strives to stay abreast of the availability of certain products, services and businesses that qualify under the HUB definition through community resource participation and involvement and through use of the state's HUB directory. The Company also strives to communicate to the HUB community the opportunities for doing business with YK Communications. This initiative will continue to be promoted by local participation and communication with organizations that HUBs belong to, as well as posting of applicable information for HUBs that are independently investigating products or contract opportunities.

YK Communications also intends to utilize small businesses other than those defined as HUBs in the procurement of goods and services. With the Company's emphasis on utilizing and promoting local or surrounding area business economic growth, YK Communications plans to continue its involvement in local, county, and state organizations that promote the use of small businesses.

**(2) Make an assessment of the success of each of the specific initiatives, programs, and activities listed above:**

YK Communications, whenever possible, contracts with local businesses to provide the goods and services that are available in YK Communications' serving area and surrounding communities. At this time, YK Communications is not engaged in any business partnerships or joint ventures. Initiatives in this area will be taken under consideration by the management and Board of Directors. If no conflict with current Company policy exists, YK Communications may seek to incorporate this issue into its future business plans.

**(3) Describe the initiatives, programs, and activities the utility will pursue during the next year to increase the diversity of its workforce and contracting opportunities for small and historically underutilized businesses:**

The management of YK Communications will continue to seek opportunities to make progress in the areas of utilizing the products and services of small and historically underutilized businesses. However, our commitment to purchasing within the small communities we serve, when and where possible, far outweigh attempting to achieve an improved statistical number. As a small, rural telephone company, we have and must recognize a fiduciary duty and responsibility to our Board of Directors, subscribers and community neighbors to make good, sound economic policy decisions as well as our community responsibility to purchase goods and services within our own

communities when possible. By the very nature of the rural area we serve, we are sometimes limited in the local availability of certain telecommunications equipment and products and must go outside our communities for these mandatory purchases. YK Communications, whenever possible, contracts with local businesses to provide the goods and services that are available in the Company's serving area and surrounding communities.

**(4) State the specific progress made under the plan filed by the utility:**

YK Communications' management continue to seek opportunities to make progress in the areas of utilizing the products and services of small and historically underutilized businesses. However, YK Communications maintains its strong commitment to purchasing within the rural and remote communities we serve, when and where possible. Because of the Company's rural service areas, we are sometimes limited in the local availability of certain telecommunications equipment and products and must go outside our communities for these mandatory purchases. YK Communications, when possible, contracts with local businesses to provide the goods and services that are available in the Company's rural serving area and neighboring communities.
