Update 2006

Initiatives, programs, and activities Verizon Communications will pursue during the next year to increase the diversity of its contracting opportunities for minority and women-owned businesses (historically underutilized businesses "HUBs").

Summary

Diversity is viewed as a "Core Value" in Verizon Communications and this commitment is reflected throughout the entire organization including the procurement process. For Verizon Southwest, HUB share of total spend was 9.3% (October 1, 2005- September 30, 2006). The results also reflect the success of our coaching and advocacy efforts in 2006, which increased the RFP opportunities for all minorities, specifically the African-American Owned businesses in the Southwest Region and Nationally. Our Second Tier Program and initiatives also positively impacted our Diversity performance in 2006.

I - Initiatives

Corporate Policy

Verizon does not have a "set aside" program for HUBs and bases its procurement practices on a competitive bid process. Verizon believes that minority and women business owners are fundamentally competitive and can deliver valuable and cost-effective products and services. To this end, it is our policy to offer HUBs maximum opportunity to compete on an equal basis with all other suppliers in our strategic sourcing process. In doing so, Verizon seeks to instill *sustainable* business with HUBs, while obtaining necessary products and services for the corporation at a competitive cost.

Management Accountability

The management team at Verizon communicates its commitment to diversity procurement by delivering annual and quarterly results throughout the corporation. These results are often included by our CEO in addresses to our stakeholder community. The Supplier Diversity team of managers continually communicate Verizon results both internally and externally to increase awareness of our diversity procurement efforts. Managers within the organization are held accountable for diversity procurement results. Verizon has re-aligned its compensation approach through its Diversity Performance Index (DPI).

**Verizon Communications
Texas Region Supplier Diversity
Supplier and Workforce Diversity Plan 2000-2004**

A percentage of the bonus compensation of executives is tied specifically to supplier diversity procurement. In addition, supplier diversity results is a performance ratings factor for employees involved in the decision making process for supplier selection.

Mission Statement

Supplier Diversity is an integral part of Verizon's Diversity Strategy to support economic development of the communities where it does business and to develop products and services that appeal to its diverse customer base. Verizon's CEO and other senior management will continue to communicate our commitment to expand opportunities for historically underutilized businesses. Verizon embraces the following mission statement for Supplier Diversity:

"Verizon has a strong commitment to diversity. That commitment extends to our supplier relationships. Supplier Diversity is also critical to Verizon's success in a competitive marketplace. It builds customer loyalty, stimulates economic growth, and taps into the innovation and entrepreneurship we need to compete for new growth in the market. By including Minority, Women, Veterans and Persons with Disability-owned business enterprises (MWDVBEs) in our supplier chain, we accomplish two goals at once. We position our business for success - and we contribute to the economic prosperity of the communities we serve."

Outreach

In order to advance the supplier diversity message, both internally and externally, Verizon takes a strategic approach to establishing and building relationships with HUBs and the organizations that support them:

- Verizon has regular participation in business development trade fairs and other networking functions where potential suppliers have direct access to Verizon procurement professionals.
- Verizon employees play active and leadership roles in support of advocacy groups such as the National Minority Supplier Development Council at the national and local levels. Included are Board memberships, event sponsorship and active committee participation.
- Verizon's award winning supplier diversity website is easy to find from the homepage of the company's consumer site. At the site, Verizon potential suppliers can register with us and view upcoming projects.
- Verizon regularly participates in business development conferences and takes on speaking roles on "How to do business with major corporations."
- We will continue to participate and or sponsor numerous outreach programs in Texas. In 2006 these included the following:

II - PROGRAMS

Resources

The Supplier Diversity program is led by a Director and is a part of the Verizon Corporate Sourcing department.

The Supplier Diversity team is responsible for:

- Interface with internal product and service procurement groups and cross-functional teams to access buying requirements and to identify opportunities for HUBs.
- Partner with advocacy groups to recruit HUB suppliers.
- Encourage and support the utilization of HUBs.
- Identify and verify supplier information.
- Establish corporate strategy and utilization goals.
- Track, monitor and report the performance and expenditures of prime suppliers and HUBs.
- Train and create an increased awareness in buying and user organizations.
- Encourage and assist prime suppliers in developing plans to increase the use of HUBs as subcontractors.
- Manage and facilitate Verizon's outreach program.

In 2006 our Supplier Diversity team will:

1. Lead the Supplier Diversity Council towards our goal of continuing to expand the Supplier Diversity initiative including the development of corporate-wide objectives, best practices, and resources.
2. Issue detailed quarterly reports showing progress towards corporate-wide objective for all major business units.
3. Review buyers' business plans for all major product/service categories to ensure inclusion of supplier diversity growth objectives.
4. Establish Supplier Diversity objectives for all major requests for proposals (RFPs) and include Supplier Diversity team members on key cross functional teams charged with supplier selection.
5. Continue to develop innovative outreach programs such as our web-based registration process and resources for certification and upcoming RFPs.
6. Continue our strong commitment to and participation in key supplier diversity advocacy organizations

**Verizon Communications
Texas Region Supplier Diversity
Supplier and Workforce Diversity Plan 2000-2004**

7. Continue to grow "second tier" program with Prime Suppliers to develop industry-based inclusion opportunities whereby major OEMs and services suppliers re-engineer their internal processes incorporating HUB suppliers to serve multiple customers.
8. Work with telecommunications industry groups such as the NMSDC Telecommunications Industry Group (TIG) to establish best practices and standards for Supplier Diversity.
9. Continue/expand our "in-reach" strategy to provide Supplier Diversity training/education to Verizon's personnel who influence or make supplier selection and/or buying decisions.
10. Continue to identify opportunities to re-engineer core supply chain processes to expand opportunity for inclusion.

III - ACTIVITIES

In-reach strategy

Verizon will continue to expand its in-reach strategy to develop business opportunities internally for HUB firms. Our activities will include:

- Supplier Diversity Managers attendance at Business Unit staff meetings to provide Supplier Diversity training and to review our current objectives.
- Our Supplier Diversity objectives will be communicated to each Business Unit's Diversity Council.
- Our Supplier Diversity Team will work with key decision makers and stakeholders to establish corporate-wide objectives and policies.
- Educational sessions will be conducted with cross-functional end user organizations to encourage inclusion of HUBs in high tech and non-traditional areas.
- Supplier Diversity Managers will be members of all strategic functional teams (CFTs) charged with selection of suppliers. Specific direct and/or "second tier" Supplier Diversity objectives will be established for each CFT.

**Verizon Communications
Texas Region Supplier Diversity
Supplier and Workforce Diversity Plan 2000-2004**

- Supplier Diversity results will be reviewed each quarter with senior Verizon leaders.
- Continue to support Verizon leadership message that Supplier Diversity is integral to Verizon success.
- Expand use of internal website as a resource for supplier referrals and a “tool kit” for buyers and cross-functional teams.
- Further develop our external website to increase outreach effectiveness.
- Recognize Verizon employees’ contributions to Supplier Diversity.
- Engage senior executive in active participation in business development outreach activities.
- Consistently communicate our vision, initiative, and accomplishments.
