Austin, Texas 78701

RE: Project No. 32182 – PUC Investigation of Methods to Improve Electric and Telecom Infrastructure That Will Minimize Long Term Outages and Restoration Costs Associated with Gulf Coast Hurricanes

Dear Mr. Galloway:

In response to Staff's request in Project No. 32182 for written descriptions of utilities' vegetation management programs for overhead facilities and on-going cyclical, ground-based inspection programs for overhead facilities, XIT Telecommunication and Technology, Ltd. (XT&T) files its response that 100% of its above-ground facilities are on poles belonging to Xcel Energy.

Therefore, XT&T does not require a vegetation management or aerial facility inspection program.

Sincerely,

A handwritten signature in cursive script that reads "Dorothy Young".

Dorothy Young  
Authorized Representative  
XIT Telecommunication and Technology, Ltd.
