RE: Project No. 32182 – PUC Investigation of Methods to Improve Electric and Telecom Infrastructure That Will Minimize Long Term Outages and Restoration Costs Associated with Gulf Coast Hurricanes

Dear Mr. Galloway:

In response to Staff's request in Project No. 32182 for written descriptions of utilities' vegetation management programs for overhead facilities and on-going cyclical, ground-based inspection programs for overhead facilities, One Source Communications (One Source) files its response that it leases more than 99% of its overhead pole space.

Therefore, One Source does not require a vegetation management or aerial facility inspection program.

Sincerely,

A handwritten signature in cursive script that reads "Dorothy Young".

Dorothy Young
Authorized Representative
One Source Communications
