RE: Project No. 32182 – *Investigation of Methods to Improve Electric and Telecom Infrastructure That Will Minimize Long Term Outages and Restoration Costs*

Dear Mr. Galloway:

On behalf of Border to Border Communications, Inc. ("Border"), I am filing an original and ten (10) copies of this updated response to the PUC Staff's October 14, 2008, Information Request in the above referenced Project.

As Border has previously reported, the Company has no overhead facilities and therefore has no overhead facility inspection program or vegetation program in place at this time.

If you need any additional information, please contact Herman C. Roark, Jr. at telephone number 956-936-2000 or by email at [herman.roark@border2border.com](mailto:herman.roark@border2border.com).

Respectfully submitted,

Herman C. Roark, Jr.  
President
