RE: Texas Coastal Management Program Quarterly Report

Dear Ms. Garcia:

As required by section 505.30(e) of the Texas Coastal Management Program and Public Utility Commission Substantive Rule 25.102, the Commission's records indicate that for the period of December 1, 2002 – February 28, 2003, one application for a certificate of convenience and necessity (CCN) has been filed subject to the Coastal Management Program. Docket Number 27178 - *Application of Texas-New Mexico Power Company for a CCN for a Proposed Transmission Line in Galveston County for the Valero Coker Project* was filed on December 27, 2002, and is currently pending at the Commission.

Additionally, there have been no new rules or amendments to P.U.C. SUBST. R. 25.102 relating to the Coastal Management Program since the last report.

If you need any further information regarding the above, please contact Adriana Gonzales at 936-7223.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Lane Lanford".

W. Lane Lanford
Executive Director
