RE: **Project No. 32515**
Texas Coastal Management Program Quarterly Report
1st Quarter FY 2023

Dear Coastal Management Plan Coordinator:

As required by Section 29.30(e) of the Texas Coastal Management Program and 16 Texas Administrative Code § 25.102, the Commission's records indicate that for the 1st Quarter period of September 1, 2022 through November 30, 2022, three applications for certificate of convenience and necessity (CCN) involving a transmission line or generation facilities were filed. The Commission approved six applications for transmission facilities in the 1st Quarter of FY 2023, one of which was subject to CMP oversight. There are two dockets currently pending that are subject to CMP oversight.

There have been no new rules or amendments to 16 TAC § 25.102 relating to the Coastal Management Program since the last report. If you need any further information regarding the above, please contact Theresa Walker at theresa.walker@puc.texas.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas Gleeson", written over a horizontal line.

Thomas Gleeson
Executive Director
