RE: **Project No. 32515**
Texas Coastal Management Program Quarterly Report
3rd Quarter FY 2024

Dear Coastal Management Plan Coordinator:

As required by Section 29.30(e) of the Texas Coastal Management Program and 16 Texas Administrative Code § 25.102, the Commission's records indicate that for the 3rd Quarter period of March 1, 2024 through May 31, 2024, seven applications for certificate of convenience and necessity (CCN) involving a transmission line or generation facilities were filed. The Commission approved seven applications for transmission facilities in the 1st Quarter of FY 2024, two of which were subject to CMP oversight. There is one docket currently pending that are subject to CMP oversight.

There have been no new rules or amendments to 16 TAC § 25.102 relating to the Coastal Management Program since the last report. If you need any further information regarding the above, please contact Andrea Gonzalez at andrea.gonzalez@puc.texas.gov.

Sincerely,

A handwritten signature in black ink that reads "Connie Corona".

Connie Corona
Executive Director
