Dear Judges:

As discussed at the prehearing conference yesterday, I am attaching a proposed hearing schedule and list of hearing procedures for the referenced cases which have been agreed upon by all parties who attended the prehearing conference. The dates for the witnesses are dates certain. Consistent with Order No. 6, the schedule provides an assurance of at least 16 hearing days. Each intervenor witness on the list is designated by the party he or she is testifying for. All other named witnesses are company witnesses.

As you can also see, most or parts of the first three hearing dates include time for settlement discussions. If it is warranted, the parties have agreed that these discussions can be extended, which may push the hearing dates back.

Thank you for your consideration of these matters. Please let me know if you have any questions about this prior to the commencement of the hearing on Thursday.

Very truly yours,

Bracewell & Giuliani LLP

**PROPOSED JOINT HEARING AND POST-HEARING
PROCEDURES FOR DOCKET NOS. 33309 AND 33310**

- Pre-filed testimony from both dockets will be offered in evidence at the commencement of each witness' appearance on the witness stand. A separate record of pre-filed testimony and exhibits admitted in evidence will be maintained for each docket. Therefore, pre-filed testimony and exhibits should be separately numbered for each docket. Parties should have enough copies of pre-filed testimony and exhibits to ensure that two complete records (include copies for the appeal box) can be maintained.
- RFI responses will only be admissible in the docket in which the response was provided, unless a proper predicate is established to justify admission of the RFI response in the other company's docket.
- Parties will make reasonable efforts to indicate the docket to which a particular line of questioning or a particular exhibit relates (Dk. 33309, Dk. 33310, or both dockets). If the record is unclear as to which docket a particular section of testimony or a particular exhibit relates, it will be assumed that the testimony or exhibit in question relates to both dockets.
- Briefing procedures to be specified during or subsequent to hearing.
- A separate proposal for decision will be prepared in each docket and separate exceptions and replies to exceptions will be filed in each docket.
- A separate final order will be issued in each docket.
