Enclosures: (1) Executed SGIA Amendment

**AMENDMENT ONE TO
ERCOT STANDARD GENERATION INTERCONNECTION AGREEMENT**

This Amendment One (“Amendment”) to the Dori BQ Solar Project Electric Reliability Council of Texas Standard Generation Interconnection Agreement, (the “SGIA”) dated December 1, 2022, is made between **Sunnyside Energy, LLC** (“Generator”) and **CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC** (“CenterPoint Energy”), (collectively, “the Parties”) effective on the 1st day of March, 2023. In consideration of the mutual promises and undertakings herein set forth, Generator and CenterPoint Energy agree to amend the SGIA as follows:

Exhibit “E” dated December 1, 2022 is replaced with the Exhibit “E” dated March 1, 2023, which is attached to this Amendment One.

Except as otherwise expressly provided for herein, the SGIA will continue in full force and effect in accordance with its terms.

Generator and CenterPoint Energy have caused this Amendment to be executed in several counterparts, each of which shall be deemed to be an original, but all shall constitute one and the same instrument.

Exhibit “E”
Security Arrangement Details

- A) The total estimated project cost to construct the TIF as described in Exhibit “C” (less any CIAC amount described in Exhibit C) is approximately \$16,300,000.00 (the “Security Estimate”). The Security Estimate does not include the estimated cost for obtaining any required CCNs for the TIF. The Parties at this time do not anticipate that a CCN is required for the construction of the TIF. However, if TSP determines that a CCN is required to construct the TIF or any portion thereof, the estimated cost for obtaining the CCN will be added to the Security Estimate (with such addition, the “Revised Security Estimate”).
- B) In accordance with Section 8.3 of Exhibit A, TSP requires Generator to deliver the Security in one or more of the forms described below in the cumulative amount of the Security Estimate or Revised Security Estimate by the Scheduled Start Date specified in Exhibit “B.”

[LETTER OF CREDIT OPTION]

- C) The Security shall be in the form of one or more irrevocable letters of credit in favor of TSP issued by a financial institution reasonably acceptable to TSP having a long-term debt rating by Moody’s Investor Services of “A3” or better, and Standard & Poor’s long-term debt rating of “A-” or better (each, a “Letter of Credit”).
- D) Generator shall deliver to TSP a letter of Credit in the amount of \$500,000 (the “Initial Letter of Credit”) by the Scheduled Start Date specified in Exhibit “B” and another Letter of Credit in the amount of \$15,800,000 or the remaining balance of any Revised Security Estimate, whichever amount is greater, (the “Second Letter of Credit”) no later than 180 days after the delivery to TSP of the Initial Letter of Credit.
- E) Generator acknowledges that TSP has no obligation to incur or commit to costs for any of the activities described in Section 4.3 of the Exhibit “A” of this Agreement Beyond the amount of the Initial Letter of Credit, until the delivery of the Second Letter of Credit. Generator further acknowledges that if the Second Letter of Credit is not provided to TSP no later than 180 days after the delivery to TSP of the Initial Letter of Credit, then the TIF In-Service Date in Exhibit “B” will be delayed on a day for day basis until it is delivered.
