**RE: Subject: Project No. 35077—Oncor Electric Delivery Company's Transmission  
Contract Filing Pursuant to Subst. Rule 25.195(h)**

Find attached the First Amendment to the Standard Generation Interconnection Agreement between Oncor Electric Delivery Company LLC and BDPU Solar Tormes LLC (Tormes Solar) (22INR0437), dated December 6, 2024, for filing at the Public Utility Commission pursuant to Substantive Rule 25.195(h).

Sincerely,

A handwritten signature in black ink that reads "Thomas J. Yamin".

Thomas J. Yamin, P.E.  
Director

## **AMENDMENT NO. 1 TO ERCOT STANDARD GENERATION INTERCONNECTION AGREEMENT**

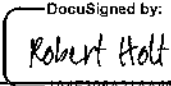

This Amendment No. 1 to the ERCOT Standard Generation Interconnection Agreement dated as of April 10, 2024 (“Agreement”) by and between Oncor Electric Delivery Company, LLC (“Transmission Service Provider”), and BDPU Solar Tormes LLC (“Generator”), is made this 6th day of December 2024.

In consideration of the mutual promises and undertakings herein set forth and other good and valuable consideration, the parties hereby agree to amend the Agreement as follows:

1. Exhibit “B” Time Schedule to the Agreement is hereby deleted in its entirety and replaced with the attached Exhibit “D” Time Schedule.
2. Exhibit “E” Security Arrangement Details to the Agreement is hereby deleted in its entirety and replaced with the attached Exhibit “E” Security Arrangement Details.
3. Except as provided above, the Agreement will remain in effect in accordance with its terms.

IN WITNESS WHEREOF, the Parties have caused this Amendment No. 1 to be signed by their duly authorized representatives, in duplicate originals, each of which shall constitute and be an original effective amendment to the Agreement.

## **Exhibit "B"**

### **Time Schedule**

Interconnection Option chosen by Generator (check one):  X  Section 4.1.A. or      Section 4.1.B

If Section 4.1.B is chosen by Generator, the In-Service Date(s) was determined by (check one): (1) good faith negotiations, or (2)      Designated by Generator upon failure to agree.

Date by which Generator must provide notice to proceed with design and procurement, and construction, and provide security, as specified in Section 4.2, so that TSP may maintain schedule to meet the In-Service Date: **December 06, 2024**

In - Service Date(s): **December 03, 2026**

Scheduled Trial Operation Date: **December 31, 2026**

Scheduled Commercial Operation Date: **March 31, 2027**

Date by which TSP will submit the Metering Design Proposal to ERCOT: **June 03, 2026**

Date by which Generator will provide Information required for sizing the EPS Metering CT's: **September 03, 2025**

Date by which Generator will make contact with TSP to provide a contact for TSP Right of Way coordination: **October 14, 2025**

Date by which Generator will provide its proposed protection system design to TSP in accordance with Attachment 3 to Exhibit "C": **June 03, 2026**

Date by which Generator will provide its proposed protection system device settings and other information to TSP in accordance with Attachment 3 to Exhibit "C": **October 02, 2026**

Date by which Generator will provide its proposed names of its equipment, as referenced in Exhibit "C", to TSP: **April 03, 2026**

Date by which TSP must take ownership or possession of the deed or easement(s), in accordance with Exhibit "C", for property for the TIF, so that TSP may maintain schedule to meet the In-Service Date: **April 15, 2026**

Date by which Generator must have removed or relocated any existing Generator or third party underground and aboveground facilities from the property where the **Drane Switch** will be constructed to a location acceptable to TSP and have caused any existing Generator or third-party easements on such property to be terminated, as referenced in Exhibit "C": **March 13, 2026**

Date by which Generator will provide to TSP site drawings showing the proposed routes and locations of all generating units, transmission lines, distribution lines, and roads planned to be constructed by Generator: **May 01, 2026**

Date by which Generator will provide to TSP the Latitude and Longitude of all solar panel generating units: **June 03, 2026**

Date by which Generator will provide to TSP an AC distribution voltage point of interconnection, pursuant to Exhibit C: **July 15, 2026**

Date by which Generator will have in place the communication facilities specified in Exhibit C: **October 20, 2026**

Date by which Generator must provide an all-weather road acceptable to TSP for TSP's ingress and egress to and from the TIF site, so that TSP may maintain schedule to meet the In-Service Date: **March 13, 2026**

Date by which Generator will provide its design of the facilities and operating scheme to comply with the reactive power requirements specified in Exhibit C, when the plant is not generating real power into the ERCOT grid: **June 03, 2026**

Date by which Generator will provide its design of the facilities to comply with the unit reactive power requirements specified in Exhibit C, when the plant is generating real power into the ERCOT grid: **June 03, 2026**

Date by which Generator will make contact with TSP to select the tap position of Generator's main power transformer(s) pursuant to Exhibit C: **June 03, 2026**

Date by which Generator will submit the grading and drainage design for **Drane Switch** and the All-Weather Road and access drives to TSP for review and approval pursuant to Exhibit C: **November 14, 2025**

Date by which Generator will complete the grading and drainage design for **Drane Switch** and the All-Weather Road and access drives pursuant to Exhibit C, so that TSP may maintain schedule to meet the In-Service Date: **January 15, 2026**

**Generator to notify TSP four weeks prior to beginning station site and All-weather and access road grading and drainage installation.**

Date by which Generator will complete the **Drane Switch** grading and the All-Weather Road, and provide access for Oncor inspection, pursuant to Exhibit C: **March 13, 2026**

Date by which TSP will provide preliminary exhibits for the deeds/easements/rights of way for the **Drane Switch** associated transmission lines, pursuant to Exhibit C, so that TSP may maintain schedule to meet the In-Service Date: **November 14, 2025**

Date by which TSP will provide final exhibits for the deeds/easements/rights of way for the **Drane Switch** associated transmission lines, pursuant to Exhibit C, so that TSP may maintain schedule to meet the In-Service Date: **January 15, 2026**

Date by which Generator will provide preliminary exhibits for the deeds/easements for **Drane Switch** entrance drive, and the All-Weather Road, pursuant to Exhibit C, so that TSP may maintain schedule to meet the In-Service Date: **November 14, 2025**

Date by which Generator will provide final exhibits for the deeds/easements for **Drane Switch** and entrance drive, the All-Weather Road, pursuant to Exhibit C, so that TSP may maintain schedule to meet the In-Service Date: **January 15, 2026**

Date by which Generator will have the 4-hole pads installed at the Point of Interconnection for TSP's jumper terminations: **October 2, 2026**

Due to the nature of the subject of this Agreement, the Parties may mutually agree to change the dates and times of this Exhibit "B".

## Exhibit "E"

### Security Arrangement Details

Effective on or before **December 06, 2024**, Generator shall cause to be established (the date of such establishment shall be the "Effective Date"), and shall at all times through the earlier of (i) five (5) business days after the date upon which TSP receives written notifications from Generator and ERCOT that Commercial Operation has been achieved or (ii) ninety (90) days after the termination of the Agreement in accordance with its terms (the earlier of which shall be the "Final Expiration Date"), cause to be maintained in full force and effect an "Irrevocable Standby Letter of Credit" for the benefit of TSP in a commercially acceptable form consistent with this Exhibit E and otherwise acceptable to TSP and Generator, which acceptance shall not be unreasonably withheld, in the amount as set forth below. "Irrevocable Standby Letter of Credit" shall mean an irrevocable, transferable letter of credit, issued by a Generator-selected and TSP-approved (which approval shall not be unreasonably withheld), major U.S. commercial bank, or a U.S. branch office of a major foreign commercial bank, with a credit rating of at least "A-" by Standard & Poor's and "A3" by Moody's Investor Service ("Bank"). The Irrevocable Standby Letter of Credit shall be transferable, more than one time, in whole but not in part, in favor of any party whom TSP certifies has succeeded to TSP's right, title and interest in and to this Agreement. Should TSP transfer such Irrevocable Standby Letter of Credit as stated above, Generator shall reimburse TSP for any costs it incurs from the Bank associated with such transfers.

If at any time during the term of this Agreement, the Bank suffers a credit rating reduction to less than "A-" by Standard & Poor's or "A3" by Moody's Investor Service, Generator shall replace that Irrevocable Standby Letter of Credit with another Irrevocable Standby Letter of Credit of the same amount and with the same beneficiary from another TSP-approved bank of Generator's choice within fifteen (15) business days of the date of such event. Failure to provide a substitute Irrevocable Standby Letter of Credit within the time period specified above shall be deemed a Default under Section 10.6 of the Agreement, notwithstanding any cure period otherwise provided for in Section 10.6, and TSP may draw upon the Irrevocable Standby Letter of Credit to secure a cash deposit as security under this Agreement.

The Irrevocable Standby Letter of Credit may consist of one or more consecutive terms (each, a "Term"), the first of which shall be effective on or before the Effective Date and the last of which shall expire on the Final Expiration Date; provided, that, the Irrevocable Standby Letter of Credit shall automatically renew from Term to Term without amendment such that there shall be no interruption of surety provided by the Irrevocable Standby Letter of Credit from the Effective Date through the Final Expiration Date.

To the extent that the Bank has the unilateral right not to renew the Irrevocable Standby Letter of Credit for a successive Term, the Bank shall give notice to TSP and Generator in writing by certified mail, return receipt requested or via courier service, of the exercise of its right not to renew the Irrevocable Standby Letter of Credit for a successive Term (an "Expiring Term") not less than ninety (90) days prior to the expiration date of any Expiring Term. Generator hereby

agrees that in the event that the Bank gives such notice and Generator does not provide TSP with a substitute Irrevocable Standby Letter of Credit in substantially the same form as the expiring Irrevocable Standby Letter of Credit at least forty-five (45) days prior to the expiration date of any Expiring Term, TSP shall have the right to retain as security the full amount (as specified in the Irrevocable Standby Letter of Credit) of the expiring Irrevocable Standby Letter of Credit. The substitute Irrevocable Standby Letter of Credit shall meet the requirements of this Exhibit E and be otherwise acceptable to TSP and Generator, which acceptance shall not be unreasonably withheld. Failure to provide a substitute Irrevocable Standby Letter of Credit within the time period specified above shall be deemed a Default under Section 10.6 of the Agreement, notwithstanding any cure period otherwise provided for in Section 10.6, and TSP may draw upon the Irrevocable Standby Letter of Credit to secure a cash deposit as security under this Agreement.

In the event that an Irrevocable Standby Letter of Credit is set to expire on a date prior to the Final Expiration Date and Generator has not provided to TSP a substitute Irrevocable Standby Letter of Credit at least forty-five (45) days in advance of such expiration, TSP shall have the right to retain as security the full amount (as specified in the Irrevocable Standby Letter of Credit) of the expiring Irrevocable Standby Letter of Credit. The substitute Irrevocable Standby Letter of Credit shall meet the requirements of this Exhibit E and be otherwise acceptable to TSP and Generator, which acceptance shall not be unreasonably withheld. Failure to provide a substitute Irrevocable Standby Letter of Credit within the time period specified above shall be deemed a Default under Section 10.6 of the Agreement, notwithstanding any cure period otherwise provided for in Section 10.6, and TSP may draw upon the Irrevocable Standby Letter of Credit to secure a cash deposit as security under this Agreement.

Except to the extent that the Bank has the unilateral right not to renew the Irrevocable Standby Letter of Credit for a successive Term, the Irrevocable Standby Letter of Credit to be issued in connection herewith shall have no provision for termination by the Bank or Generator.

The Irrevocable Standby Letter of Credit shall provide surety to TSP on the following effective dates in the amounts set forth below:

<u>Effective Date</u>	<u>Surety Amount</u>
On or before December 06, 2024	\$14,499,907
