Amendment One to P. H. Robinson ERCOT Standard Generation Interconnection Agreement	2-5
--	-----

**AMENDMENT ONE TO
ERCOT STANDARD GENERATION INTERCONNECTION AGREEMENT**

This Amendment One ("Amendment") to the P.H. Robinson Electric Generating Station Electric Reliability Council of Texas Standard Generation Interconnection Agreement, (the "SGIA") that was originally entered into between Texas Genco Holdings, Inc. and Reliant Energy HL&P dated August 31, 2002, is made between **NRG TEXAS POWER LLC** ("NRG") as successor in interest to Texas Genco Holdings, Inc. and **CENTERPOINT ENERGY HOUSTON ELECTRIC, LLC** ("CenterPoint Energy"), as successor in interest to Reliant Energy HL&P, (collectively, "the Parties") on this 11th day of November, 2007. In consideration of the mutual promises and undertakings herein set forth, NRG and CenterPoint Energy agree to amend the SGIA as follows:

1. NRG has discontinued use of the Fuel Oil system at the P. H. Robinson Generation Facility ("Fuel Oil System"). The Fuel Oil System consisted of equipment located behind (and including) NRG's interconnecting Switch K635 down to, but excluding the foundations. The equipment was located on easement parcel PS11D-G02, which consisted of 0.072 acres as described in the Deed to NRG dated August 31, 2002. NRG has removed its Fuel Oil System equipment, released it's easement and deeded the remaining foundations to CenterPoint Energy. An updated Basic One Line showing this is attached as Attachment One to this Amendment One. In order to reflect this removal, the Parties agree that Paragraph 2)A) of Exhibit "C" to the SGIA, which includes the list of interconnection points, is amended to read as follows:

- 2) Point of Interconnection Location
 - A) TSP side of the following Generator's disconnect switch(es)/circuit breaker(s) (including the breaker's maintenance disconnect switches) at the Plant adjacent to TSP's P. H. Robinson Substation ("TIFSUB"), located at 5501 State Highway 146, Bacliff, Galveston County, Texas 77518:
 - 1) P. H. Robinson 345/138/23 kV Autotransformer No. 1 – Tertiary
 - (i) Switch K451 / Fuel Oil Conversion Transformer 34A
 - 2) P. H. Robinson 138 kV North:
 - (i) Switch P735 / Supplemental Cooling Transformer
 - (ii) Switch P815 / Transformer No. 1 / Unit 1
 - (iii) Switch P691 / Standby Transformer A
 - (iv) Switch P725 / Transformer No. 2 / Unit 2
 - 3) P. H. Robinson 138 kV South:
 - (i) Switch P885 / Transformer No. 3 / Unit 3
 - (ii) Switch P701 / Standby Transformer B
 - (iii) Switch P041 / Standby Transformer C
 - 4) P. H. Robinson 345 kV:
 - (i) Switch G049 / Transformer No. 4 / Unit 4

2. NRG also has abandoned the Fuel Oil System equipment located behind, and including, NRG's Switch K451, which is located on parcel PS11D-G01 and consists of 0.020 acres, as described in the Deed to NRG dated August 31, 2002. NRG agrees that within 365 days after receiving a written request from CenterPoint Energy, it will remove at its expense such equipment and break back foundations to below grade and backfill. NRG also agrees to release its easement to the described parcel of land and convey the foundations remaining on the property to CenterPoint Energy.

3. Exhibit "D" dated June 2002 is replaced with the Exhibit "D" dated October 2007, which is attached as Attachment Two to this Amendment One.

Except as otherwise expressly provided for herein, the SGIA will continue in full force and effect in accordance with its terms.

NRG and CenterPoint Energy have caused this Amendment to be executed in several counterparts, each of which shall be deemed to be an original but all shall constitute one and the same instrument.
