Response No. 1-7:

A consensus was reached by all persons listed in Question 1-7 that GN11 was LCRA TSC's preferred route. Except for those witnesses scheduled to testify on LCRA TSC's behalf, none of the persons named have reviewed any documents since August 18, 2009, for the purpose of confirming or changing LCRA TSC's consensus opinion or their previous recommendation.

Witnesses Curtis Symank and Dennis Palafox have reviewed all LCRA TSC's RFI responses in

this docket since the August 18, 2009 meeting. None of the information in these RFIs or LCRA TSC's responses has changed Messrs. Symank's and Palafox's opinion about LCRA TSC's preferred route.

None of the other individuals listed have reviewed any documents for the purpose of confirming or changing their recommendations about the preferred route since August 19, 2009.
