**LCRA TRANSMISSION SERVICES CORPORATION'S RESPONSE TO
LANDOWNERS' PRESERVATION GROUP'S FIRST REQUEST FOR INFORMATION**

Question No. 1-16:

Please describe the solution engineered by Oncor to issues associated with locating of the Newton substation in a floodplain.

Response No. 1-16:

LCRA TSC is aware that Oncor is developing a facility design that will be the "solution engineered by Oncor to issues associated with locating of the Newton substation in a floodplain." However, LCRA TSC has not been advised of Oncor's detailed design of the facility or how Oncor plans to address the location of the facility in a floodplain. Any additional response on this subject by LCRA TSC would be totally speculative.
