Dear Commissioner:

I am writing to protest the Riley - Krum West 345 kV transmission line you will be voting on October 29th 2010. The "Settlement Route" including Link N2 runs across my property in Silver Lakes Ranch, a 2300 acre residential development with 528 Property Owners. We feel our subdivision was not given consideration by the PUC hearings docket number 38140. All of our Property Owners have a common interest in land that N2 crosses and only a handful of owners were notified in accordance with SOAH and PUC. We estimate close to 450 Property Owners are just finding out about this transmission line. We feel our rights have been ignored and we demand consideration in this process.

Additional Comments:

Not only was I not notified of this proposed line but I understand it will cost approximately \$42 million more to route it through a dead restricted future residential neighborhood. Not only will property values go down, but I and 500 other owners will have those values adjusted and the school district + Counties will lose quite a bit of taxable value. I will never build on my property, if this line goes through our subdivision.

Sincerely,

(add additional sheets if necessary)

Arthur & Heidi III
