

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes ☒ No ☐

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes ☐ No ☒

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

NONE

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes ☒ No ☐

If so, would you please identify the approximate location?

HOUSEHOLD - BARN - CORRAL
PLUS 26" SUNOCO PIPELINE CROSSING

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☐ No ☒ ROUGH TERRAIN AND ROCKY LAND

If so, would you please list them in the space below?

SEE ABOVE 400' ELEVATION CHANGE
RANGER HILL (I 20)

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- 1 ☒ Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
2 ☒ Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
☐ Proximity to FAA-registered airports, private airstrips, and heliports
☐ Proximity to agricultural areas irrigated by traveling irrigation systems
☐ Proximity to parks and/or recreational areas
☐ Proximity to historical or archeological sites

- ☐ Proximity to environmentally sensitive areas
☐ Protected or endangered species
☒ Proximity to existing corridors (electric transmission lines, pipelines, etc.)
☐ Cost

8. Which of the following applies to your situation?

- a) ☒ Potential line route is near my home
b) ☒ Potential line route is near my farm/ranch or business
c) ☒ Potential line route is on my land
d) ☒ Not affected by a potential route
e) ☐ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?

Yes ☒ No ☐

Are you concerned with any particular route?

Yes ☒ No ☐ //

If so, please explain and identify the portion of the route by the link letter(s).

14 PROPERTY 7-204-205

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole ☒ Lattice ☐ No Preference ☐

11. How did you learn about this open house?

Newspaper ☐ Mail ☒ Other ☐

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name LUTHER FAMBRG

Address 1026 HWY 16 SO.

City STRAWN Zip TEX

Telephone (home) 254-672-5640 (work) _____

13. Do you have any additional comments, suggestions or questions?

Thank you for your comments

QUESTIONNAIRE
Central A to Central C to Sam Switch to Navarro
345 kV Transmission Line Project

This questionnaire is intended to help identify issues related to the routing of the proposed Lone Star Transmission, LLC (Lone Star) 345 kV Transmission Line Project. Your answers will assist the project team in understanding your interests and concerns, and will allow the team to incorporate this information into the route selection process.

We encourage you to fill out and submit your questionnaire at the meeting. If taking the questionnaire with you, please mail the completed form by October 30, 2009 to:

Lone Star Transmission, LLC
1000 Louisiana St., Ste 5550
Houston, TX 77002

1. Do you believe the need for this transmission line project has been explained adequately?
Yes ☒ No ☐ Uncertain ☐

If "No" or "Uncertain", what additional information would be helpful to you?

2. Were the explanations of the Need for the Project helpful to you?
Yes ☒ No ☐
3. Was the information presented helpful in your understanding of the proposed project?
Yes ☒ No ☐
4. The Public Utility Commission of Texas requires that several factors be considered when evaluating and conducting the route selection process for a new electric transmission line, including:
- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
 - Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
 - Proximity to FAA-registered airports, private airstrips, and heliports
 - Agricultural areas irrigated by traveling irrigation systems
 - Proximity to parks and/or recreational areas
 - Proximity to historical or archeological sites
 - Environmentally sensitive areas
 - Protected or endangered species
 - Existing corridors (electric transmission lines, pipelines, etc.)
 - Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes ☒ No ☐

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes ☐ No ☒

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes ☒ No ☐

If so, would you please identify the approximate location?

SUNOCO GAS PIPELINE ESMT - S.W.
CORNER OF PROPERTY

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☐ No ☒

If so, would you please list them in the space below?

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- 1 Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- 2 Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- ____ Proximity to FAA-registered airports, private airstrips, and heliports
- ____ Proximity to agricultural areas irrigated by traveling irrigation systems
- ____ Proximity to parks and/or recreational areas
- ____ Proximity to historical or archeological sites

- ☐ Proximity to environmentally sensitive areas
☐ Protected or endangered species
☐ Proximity to existing corridors (electric transmission lines, pipelines, etc.)
☐ Cost

8. Which of the following applies to your situation?

- a) ☒ Potential line route is near my home site
b) ☐ Potential line route is near my farm/ranch or business
c) ☒ Potential line route is on my land
d) ☐ Not affected by a potential route
e) ☐ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?

Yes ☒ No ☐

Are you concerned with any particular route?

Yes ☒ No ☐

If so, please explain and identify the portion of the route by the link letter(s).

ii 7-204 PROPERTY #

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole ☒ Lattice ☐ No Preference ☐

11. How did you learn about this open house?

Newspaper ☐ Mail ☒ Other ☐

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name RICK FAMBRO

Address 1416 J AVE.

City PLANO TX Zip 75074

Telephone (home) 972-404-3042 (work) 972-985-0500

QUESTIONNAIRE
Central A to Central C to Sam Switch to Navarro
345 kV Transmission Line Project

This questionnaire is intended to help identify issues related to the routing of the proposed Lone Star Transmission, LLC (Lone Star) 345 kV Transmission Line Project. Your answers will assist the project team in understanding your interests and concerns, and will allow the team to incorporate this information into the route selection process.

We encourage you to fill out and submit your questionnaire at the meeting. If taking the questionnaire with you, please mail the completed form by October 30, 2009 to:

Lone Star Transmission, LLC
1000 Louisiana St., Ste 5550
Houston, TX 77002

1. Do you believe the need for this transmission line project has been explained adequately?

Yes _____ No _____ Uncertain _____

Nothing was mentioned

If "No" or "Uncertain", what additional information would be helpful to you?

**Why my land, property, house, barn etc.
It's being put (the line) to close to my house*

2. Were the explanations of the Need for the Project helpful to you?

Yes _____ No _____

Nothing was mentioned

3. Was the information presented helpful in your understanding of the proposed project?

Yes _____ No _____

Showed 4 proposed lines in about all

4. The Public Utility Commission of Texas requires that several factors be considered when evaluating and conducting the route selection process for a new electric transmission line, including:

- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- Proximity to FAA-registered airports, private airstrips, and heliports
- Agricultural areas irrigated by traveling irrigation systems
- Proximity to parks and/or recreational areas
- Proximity to historical or archeological sites
- Environmentally sensitive areas
- Protected or endangered species
- Existing corridors (electric transmission lines, pipelines, etc.)
- Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes _____ No _____

*I guess they were
didn't see it environmental*

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes _____ No _____

Not aware

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes _____ No _____

If so, would you please identify the approximate location?

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☒ No _____

*Your line goes right over my
house, barn, mobile home, and irrigated
land.*

If so, would you please list them in the space below?

*I don't want the line to go over or near
my house*

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- 1 Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- 6 Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- 10 Proximity to FAA-registered airports, private airstrips, and heliports
- 2 Proximity to agricultural areas irrigated by traveling irrigation systems
- 3 Proximity to parks and/or recreational areas
- 5 Proximity to historical or archeological sites

- 7 Proximity to environmentally sensitive areas
8 Protected or endangered species
9 Proximity to existing corridors (electric transmission lines, pipelines, etc.)
4 Cost

8. Which of the following applies to your situation?

- ☒ a) ☒ Potential line route is near my home
☒ b) ☒ Potential line route is near my farm/ranch or business
☒ c) ☒ Potential line route is on my land
d) _____ Not affected by a potential route
e) _____ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?

Yes ☒ No _____

Are you concerned with any particular route?

Yes ☒ No _____

If so, please explain and identify the portion of the route by the link letter(s).

EE 7-156

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole _____ Lattice _____ No Preference _____

11. How did you learn about this open house?

Newspaper _____ Mail ☒ Other _____

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name Harner Petty
Address Route 1 Box 130A
City Danger Zip 76470
Telephone (home) _____ (work) _____

13. Do you have any additional comments, suggestions or questions?

Damages to me and my property
Does it affect T.V. reception?
How will it affect my health???

Thank you for your comments

QUESTION

Please provide a copy of the 19 submitted questionnaire responses at the Meridian, Texas Open House.

RESPONSE

Please see Attachment 1.

Preparer: Amy Mullin	Title: Assistant Project Director, Lone Star Transmission, LLC
Sponsor: David K. Turner, P.E.	Title: Project Director, Lone Star Transmission, LLC

QUESTIONNAIRE
Central A to Central C to Sam Switch to Navarro
345 kV Transmission Line Project

This questionnaire is intended to help identify issues related to the routing of the proposed Lone Star Transmission, LLC (Lone Star) 345 kV Transmission Line Project. Your answers will assist the project team in understanding your interests and concerns, and will allow the team to incorporate this information into the route selection process.

We encourage you to fill out and submit your questionnaire at the meeting. If taking the questionnaire with you, please mail the completed form by October 30, 2009 to:

Lone Star Transmission, LLC
1000 Louisiana St., Ste 5550
Houston, TX 77002

1. Do you believe the need for this transmission line project has been explained adequately?

Yes ☒ No ☐ Uncertain ☐

If "No" or "Uncertain", what additional information would be helpful to you?

2. Were the explanations of the Need for the Project helpful to you?

Yes ☒ No ☐

3. Was the information presented helpful in your understanding of the proposed project?

Yes ☒ No ☐

4. The Public Utility Commission of Texas requires that several factors be considered when evaluating and conducting the route selection process for a new electric transmission line, including:

- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- Proximity to FAA-registered airports, private airstrips, and heliports
- Agricultural areas irrigated by traveling irrigation systems
- Proximity to parks and/or recreational areas
- Proximity to historical or archeological sites
- Environmentally sensitive areas
- Protected or endangered species
- Existing corridors (electric transmission lines, pipelines, etc.)
- Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes ☒ No ☐

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes ☐ No ☒

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes ☐ No ☒

If so, would you please identify the approximate location?

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☐ No ☒

If so, would you please list them in the space below?

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- 1 Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- 5 Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- 3 Proximity to FAA-registered airports, private airstrips, and heliports
- 7 Proximity to agricultural areas irrigated by traveling irrigation systems
- 6 Proximity to parks and/or recreational areas
- 4 Proximity to historical or archeological sites

- 9 Proximity to environmentally sensitive areas
8 Protected or endangered species
3 Proximity to existing corridors (electric transmission lines, pipelines, etc.)
2 Cost

8. Which of the following applies to your situation?

- a) ☐ Potential line route is near my home
b) ☒ Potential line route is near my farm/ranch or business
c) ☒ Potential line route is on my land
d) ☒ Not affected by a potential route - HILL COUNTY PROPERTY ONLY
e) ☐ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?

Yes ☒ No ☐

Are you concerned with any particular route?

Yes ☐ No ☒

If so, please explain and identify the portion of the route by the link letter(s).

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole ☐ Lattice ☐ No Preference ☒

11. How did you learn about this open house?

Newspaper ☐ Mail ☒ Other ☐

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name KEITH & ANDREA HOAT

Address 1079 HCR 2200

City AQUILA Zip TX

Telephone (home) 254-694-3728 (work) _____

13. Do you have any additional comments, suggestions or questions?

Thank you for your comments

345 kV Transmission Line Project

This questionnaire is intended to help identify issues related to the routing of the proposed Lone Star Transmission, LLC (Lone Star) 345 kV Transmission Line Project. Your answers will assist the project team in understanding your interests and concerns, and will allow the team to incorporate this information into the route selection process.

We encourage you to fill out and submit your questionnaire at the meeting. If taking the questionnaire with you, please mail the completed form by October 30, 2009 to:

Lone Star Transmission, LLC
1000 Louisiana St., Ste 5550
Houston, TX 77002

1. Do you believe the need for this transmission line project has been explained adequately?
Yes _____ No ☒ Uncertain _____

If "No" or "Uncertain", what additional information would be helpful to you?

Why do we need new KV?

2. Were the explanations of the Need for the Project helpful to you?
Yes ☒ No _____
3. Was the information presented helpful in your understanding of the proposed project?
Yes ☒ No _____
4. The Public Utility Commission of Texas requires that several factors be considered when evaluating and conducting the route selection process for a new electric transmission line, including:
- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
 - Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
 - Proximity to FAA-registered airports, private airstrips, and heliports
 - Agricultural areas irrigated by traveling irrigation systems
 - Proximity to parks and/or recreational areas
 - Proximity to historical or archeological sites
 - Environmentally sensitive areas
 - Protected or endangered species
 - Existing corridors (electric transmission lines, pipelines, etc.)
 - Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes _____ No _____ *maybe?*

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes _____ No ☒

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes _____ No ☒

If so, would you please identify the approximate location?

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☒ No _____

If so, would you please list them in the space below?

Existing ROWs belonging to Basco Generating Co & their customers

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- _____ Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- _____ Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- _____ Proximity to FAA-registered airports, private airstrips, and heliports
- _____ Proximity to agricultural areas irrigated by traveling irrigation systems
- _____ Proximity to parks and/or recreational areas
- _____ Proximity to historical or archeological sites

- ☐ Proximity to environmentally sensitive areas
☐ Protected or endangered species
☒ Proximity to existing corridors (electric transmission lines, pipelines, etc.)
☐ Cost

8. Which of the following applies to your situation?

- a) ☒ Potential line route is near my home
b) ☒ Potential line route is near my farm/ranch or business
c) ☒ Potential line route is on my land
d) ☐ Not affected by a potential route
e) ☐ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?

Yes ☐ No ☒

Are you concerned with any particular route?

Yes ☒ No ☐

If so, please explain and identify the portion of the route by the link letter(s).

BC

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole ☒ Lattice ☐ No Preference ☐

11. How did you learn about this open house?

Newspaper ☐ Mail ☒ Other ☐

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name Jim Kelley

Address 6660 Fm 56

City Citron, TX Zip 76634

Telephone (home) 254-622-2930 (work) _____

13. Do you have any additional comments, suggestions or questions?

Put the line adjacent to Bosque
Co. operating under line, not on my
land!!!

Thank you for your comments

QUESTIONNAIRE
Central A to Central C to Sam Switch to Navarro
345 kV Transmission Line Project

This questionnaire is intended to help identify issues related to the routing of the proposed Lone Star Transmission, LLC (Lone Star) 345 kV Transmission Line Project. Your answers will assist the project team in understanding your interests and concerns, and will allow the team to incorporate this information into the route selection process.

We encourage you to fill out and submit your questionnaire at the meeting. If taking the questionnaire with you, please mail the completed form by October 30, 2009 to:

Lone Star Transmission, LLC
1000 Louisiana St., Ste 5550
Houston, TX 77002

1. Do you believe the need for this transmission line project has been explained adequately?
Yes ☒ No ☐ Uncertain ☐

If "No" or "Uncertain", what additional information would be helpful to you?

2. Were the explanations of the Need for the Project helpful to you?
Yes ☒ No ☐
3. Was the information presented helpful in your understanding of the proposed project?
Yes ☒ No ☐
4. The Public Utility Commission of Texas requires that several factors be considered when evaluating and conducting the route selection process for a new electric transmission line, including:
- ☒ Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
 - ☐ Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
 - ☐ Proximity to FAA-registered airports, private airstrips, and heliports
 - ☐ Agricultural areas irrigated by traveling irrigation systems
 - ☐ Proximity to parks and/or recreational areas
 - ☐ Proximity to historical or archeological sites
 - ☐ Environmentally sensitive areas
 - ☐ Protected or endangered species
 - ☒ Existing corridors (electric transmission lines, pipelines, etc.)
 - ☐ Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes ☒ No ☐

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes ☐ No ☒

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

Your right of way will be extremely close to my back fence and another large transmission line.

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes ☐ No ☒

If so, would you please identify the approximate location?

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☒ No ☐

If so, would you please list them in the space below?

I already have 2 transmission lines on my small place.

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- ☒ Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
☐ Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
☐ Proximity to FAA-registered airports, private airstrips, and heliports
☐ Proximity to agricultural areas irrigated by traveling irrigation systems
☐ Proximity to parks and/or recreational areas
☐ Proximity to historical or archeological sites

- ☐ Proximity to environmentally sensitive areas
☐ Protected or endangered species
☒ Proximity to existing corridors (electric transmission lines, pipelines, etc.)
☐ Cost

8. Which of the following applies to your situation?

- a) ☒ Potential line route is near my home
b) ☐ Potential line route is near my farm/ranch or business
c) ☒ Potential line route is on my land
d) ☐ Not affected by a potential route
e) ☐ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?

Yes ☒ No ☐

Are you concerned with any particular route?

Yes ☒ No ☐

If so, please explain and identify the portion of the route by the link letter(s).

Tracking No. 12-425
Bosque County - Section RR

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole ☒ Lattice ☐ No Preference ☐

11. How did you learn about this open house?

Newspaper ☐ Mail ☒ Other ☐

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name James Ogden
Address 312 N. Duncanville Rd.
City Cedar Hill, Tx. Zip 75104
Telephone (home) 972/223-6474 (work) 214/943-1157

13. Do you have any additional comments, suggestions or questions?

Please consider my place is only
2 acres. The proposed route and right
of way will take most of my west side.
Both of my stock tanks will be involved totally.
I already have 2 transmission lines
on my property,

Thank you for your comments

QUESTIONNAIRE
Central A to Central C to Sam Switch to Navarro
345 kV Transmission Line Project

This questionnaire is intended to help identify issues related to the routing of the proposed Lone Star Transmission, LLC (Lone Star) 345 kV Transmission Line Project. Your answers will assist the project team in understanding your interests and concerns, and will allow the team to incorporate this information into the route selection process.

We encourage you to fill out and submit your questionnaire at the meeting. If taking the questionnaire with you, please mail the completed form by October 30, 2009 to:

Lone Star Transmission, LLC
1000 Louisiana St., Ste 5550
Houston, TX 77002

1. Do you believe the need for this transmission line project has been explained adequately?
Yes _____ No _____ Uncertain ☒

If "No" or "Uncertain", what additional information would be helpful to you?

2. Were the explanations of the Need for the Project helpful to you?
Yes _____ No ☒
3. Was the information presented helpful in your understanding of the proposed project?
Yes ☒ No _____
4. The Public Utility Commission of Texas requires that several factors be considered when evaluating and conducting the route selection process for a new electric transmission line, including:
- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
 - Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
 - Proximity to FAA-registered airports, private airstrips, and heliports
 - Agricultural areas irrigated by traveling irrigation systems
 - Proximity to parks and/or recreational areas
 - Proximity to historical or archeological sites
 - Environmentally sensitive areas
 - Protected or endangered species
 - Existing corridors (electric transmission lines, pipelines, etc.)
 - Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes _____ No ☒

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes ☒ No _____

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

*Missing: Area of the endangered yellow warbler
Millhorn Bogus Co -*

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes _____ No ☒

If so, would you please identify the approximate location?

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☒ No _____

If so, would you please list them in the space below?

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- ☒ Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- ☒ Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- ☒ Proximity to FAA-registered airports, private airstrips, and heliports
- ☒ Proximity to agricultural areas irrigated by traveling irrigation systems
- ☒ Proximity to parks and/or recreational areas
- ☒ Proximity to historical or archeological sites

- 2 Proximity to environmentally sensitive areas
2 Protected or endangered species
3 Proximity to existing corridors (electric transmission lines, pipelines, etc.)
4 Cost

8. Which of the following applies to your situation?

- a) ☒ Potential line route is near my home
b) ☒ Potential line route is near my farm/ranch or business
c) ☒ Potential line route is on my land
d) ☐ Not affected by a potential route
e) ☐ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?

Yes ☒ No ☐

Are you concerned with any particular route?

Yes ☒ No ☐

If so, please explain and identify the portion of the route by the link letter(s).

Potential route will be in our front yard.

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole ☒ Lattice ☐ No Preference ☐

11. How did you learn about this open house?

Newspaper ☒ Mail ☒ Other ☐

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name Tony & Jeanette Simpson
Address 2461 CR. 2425
City Aradell TX Zip 76649
Telephone (home) 254-364-2212 (work) Same

13. Do you have any additional comments, suggestions or questions?

Even though it might cost too much to bury all the lines, why couldn't it be buried near homes. The right way should be with much more for these buried pipes than it is with buried pipelines especially since the landowners receive no benefit from the lines otherwise.
Thank you for your comments

Lone Star Transmission, LLC
1000 Louisiana St., Ste 5550
Houston, TX 77002

1. Do you believe the need for this transmission line project has been explained adequately?
Yes ☒ No ☐ Uncertain ☐

If "No" or "Uncertain", what additional information would be helpful to you?

2. Were the explanations of the Need for the Project helpful to you?
Yes ☒ No ☐
3. Was the information presented helpful in your understanding of the proposed project?
Yes ☒ No ☐
4. The Public Utility Commission of Texas requires that several factors be considered when evaluating and conducting the route selection process for a new electric transmission line, including:
- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
 - Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
 - ▪ Proximity to FAA-registered airports, private airstrips, and heliports
 - ▪ Agricultural areas irrigated by traveling irrigation systems
 - Proximity to parks and/or recreational areas
 - ▪ Proximity to historical or archeological sites *graveyard*
 - Environmentally sensitive areas
 - Protected or endangered species
 - Existing corridors (electric transmission lines, pipelines, etc.)
 - Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes _____ No ☒

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes _____ No ☒

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes _____ No ☒

If so, would you please identify the approximate location?

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☒ No _____

If so, would you please list them in the space below?

airport, landing strip, Hangar
Route of line cuts property in half (v r)
Route v r also will be over a family graveyard.

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- 1 Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- ____ Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- 2 Proximity to FAA-registered airports, private airstrips, and heliports
- ____ Proximity to agricultural areas irrigated by traveling irrigation systems
- ____ Proximity to parks and/or recreational areas
- 3 Proximity to historical or archeological sites

- ☐ Proximity to environmentally sensitive areas
☐ Protected or endangered species
☐ Proximity to existing corridors (electric transmission lines, pipelines, etc.)
☐ Cost

8. Which of the following applies to your situation?

- a) ☒ Potential line route is near my home
b) ☒ Potential line route is near my farm/ranch or business
c) ☒ Potential line route is on my land
d) ☐ Not affected by a potential route
e) ☐ Other, please specify

*Will cut my 300 acres in half
interfere with family cemetery I destroy my private
airport and hangar and is close to my dwelling
(home)*

9. In your opinion, were the proposed routes adequately explained?

Yes ☒ No ☐

Are you concerned with any particular route?

Yes ☒ No ☐

If so, please explain and identify the portion of the route by the link letter(s).

Route R as explained above.

10. In your opinion, is a Monopole or Lattice structure preferable?

Monopole ☒ Lattice ☐ No Preference ☐

11. How did you learn about this open house?

Newspaper ☐ Mail ☒ Other ☐

12. If you would like to be contacted regarding this project, please enter your name and address below (names and addresses are considered confidential).

Name Roscoe Maker

Address ~~1234~~ Box 102

City Fredell Zip 76649

Telephone (home) 364-2235 (work) (154)

13. Do you have any additional comments, suggestions or questions?

*Do not follow R route - Follow
existing high power electrical right of way*

Roscoe Maker

 - Environmentally sensitive areas
 - Protected or endangered species
 - Existing corridors (electric transmission lines, pipelines, etc.)
 - Cost

All of these features, that we are aware of, have been identified on the Environmental and Land Use Constraints Map and the Routing Maps. To your knowledge, are those features accurately depicted on the map?

Yes ☒ No ☐

Are you aware of any of these features that are not presently shown or are incorrectly located on the map?

Yes ☐ No ☒

If so, would you please identify the approximate location of any missing or incorrectly located features on the Environmental and Land Use Constraints Map or the Routing Maps?

5. Are you aware of any leases or encumbrances on your property that might affect any of the proposed routes depicted on the maps?

Yes ☒ No ☐

If so, would you please identify the approximate location?

We have 2 ^{electric} transmission lines & a gas transmission line running thru property.

6. In your opinion, are there any other factors or features that should be considered in our evaluation of the proposed transmission line?

Yes ☐ No ☒

If so, would you please list them in the space below?

7. What factors do you think should be given the most attention when considering locations for the proposed transmission line? Indicate the most important factor with a number "1", the second with a number "2", and so on.

- 1 Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools
- 3 Proximity to commercial radio transmitters, microwave relay stations or other electronic installations
- 2 Proximity to FAA-registered airports, private airstrips, and heliports
- 4 Proximity to agricultural areas irrigated by traveling irrigation systems
- 6 Proximity to parks and/or recreational areas
- 5 Proximity to historical or archeological sites

- 9 Proximity to environmentally sensitive areas
10 Protected or endangered species
1 Proximity to existing corridors (electric transmission lines, pipelines, etc.)
8 Cost

8. Which of the following applies to your situation?

- a) ☐ Potential line route is near my home
b) ☐ Potential line route is near my farm/ranch or business
c) ☐ Potential line route is on my land
d) ☒ Not affected by a potential route
e) ☐ Other, please specify _____

9. In your opinion, were the proposed routes adequately explained?
