

REQUEST:

Please identify all persons with an ownership interest in your property.

RESPONSE:

The following response was prepared by or under the direct supervision of Mike Noonan.

The persons or entities that own the properties of the members of the BTG were listed on the Motion to Intervene filed in this docket on June 14, 2010.

REQUEST:

If the transmission line is routed on your property, please identify specifically the location that you would prefer for the right-of-way of the line. Use a map to show the location. Online versions of the maps can be viewed at <http://www.lonestar-transmission.bgtpartners.com/open-house-materials.html>. In addition, Lone Star will provide hard copies of these maps at each location where its Application is available for public review (such locations are listed in Lone Star's notice) and will provide a hard copy to any party upon request.

RESPONSE:

The following response was prepared by or under the direct supervision of Mike Noonan.

There is no location on the properties of members of BTG where such property owners would "prefer" the right-of-way of the proposed transmission line project.

REQUEST:

Admit or deny that you do not own or reside in a habitable structure within 500 feet of the centerline of any proposed transmission line route in this docket.

RESPONSE:

The following response was prepared by or under the direct supervision of Mike Noonan.

BTG can neither admit nor deny this statement. While properties of the BTG members are generally depicted by Lone Star in the right locations, please note that the BTG Motion to Intervene filed in this docket on June 14, 2010, addressed several property ownership clarifications to the listings in the Lone Star application and Lone Star's response to the motion to intervene accepting such clarifications. In several instances, however, BTG members also own tracts of property adjacent to the tract directly affected by an alternative route(s) that are managed jointly as a single property. BTG will present maps of their total impacted property locations in conjunction with their direct testimony that will be filed in this docket at a later date.
