PUBLIC UTILITY COMMISSION
OF TEXAS

COMMENTS OF GDF SUEZ Energy Development NA, Inc.

GDF SUEZ Energy Development NA, Inc. ("GSEDNA") appreciates the opportunity to provide comments to the Public Utility Commission ("PUCT" or "Commission") with regard to the pending Application in PUCT Docket No. 38283.

This is to inform the Commission that GSEDNA is in favor of the proposed 230 kV transmission line within Hansford, Sherman and Moore Counties, Texas. GSEDNA is developing a wind project near the proposed route in Sherman and Hansford Counties and specifically supports the approval of Alternatives 3 or 7 as stated in the pending application. Either of these Alternate routes would allow the GSEDNA wind project to interconnect into the transmission grid in a technically sound and efficient manner. GSEDNA plans to invest significant capital in the area and the transmission line proposed by Southwestern Public Service Company would be of benefit to GSEDNA's wind project.

Respectfully submitted,

James L. Thorne
