**SOUTH PALO DURO CANYON GROUP'S FIRST
SUPPLEMENTAL RESPONSE TO COMMISSION STAFF'S FIRST SET OF
REQUESTS FOR INFORMATION AND FIRST SET OF REQUESTS FOR ADMISSION
TO ALL INTERVENORS, QUESTION NO. 1-5**

TO THE HONORABLE PUBLIC UTILITY COMMISSION OF TEXAS:

NOW COME Rojo Rio Ranch, Ltd., Rancho Palo Duro, Ltd., Prairie Dog River Ranch, Ltd., Goodnight Ranch Limited, Shannon Burdett, and William T. and Jimmie D. Price (hereafter "South Palo Duro Canyon Group") and file this First Supplemental Response to Commission Staff's First Set of Requests for Information and First Set of Requests for Admission to All Intervenors, Question No. 1-5.

I. WRITTEN RESPONSES

Attached hereto and incorporated herein by reference are South Palo Duro Canyon Group's written supplemental responses to the aforementioned requests for information and admission. Each such supplemental response is set forth on or attached to a separate page upon which the request has been restated. Such supplemental responses are made in the spirit of cooperation without waiver of South Palo Duro Canyon Group's right to contest the admissibility of any such matters upon hearing. South Palo Duro Canyon Group hereby stipulates that the supplemental responses may be treated by all parties exactly as if they were filed under oath.

159

II. INSPECTIONS

In those instances where materials are to be made available for inspection by request or in lieu of a written supplemental response, the attached supplemental response will so state. For those materials that a supplemental response indicates may be inspected at the Austin voluminous room, please call in advance for an appointment in order to assure that there is sufficient space to accommodate your inspection. To make an appointment at the Austin voluminous room, located at the offices of Winstead PC, 401 Congress Ave., Ste. #2100, Austin, Texas 78701, or to review those materials that a supplemental response indicates may be inspected at their usual repository, please call Karyn Veazey at 512-370-2943. Inspections will be scheduled so as to accommodate all such requests with as little inconvenience to the requesting party and to company operations as possible. South Palo Duro Canyon Group will be as cooperative as possible in making the requesting party's time as productive as possible.

Respectfully submitted,

WINSTEAD PC

REQUEST:

Do you currently have any windmills located on your property? If so, please describe the location of the windmills and how many are located on your property.

SUPPLEMENTAL RESPONSE:

The following response was prepared by or under the direct supervision of Arthur Fields, Hardy Fields, Mike Hughes, Edward Morris, Shannon Burdett, and William Price.

In the original response to this request, the South Palo Duro Canyon Group responded that there are no windmills connected to the Electric Reliability Council of Texas power grid (or any other power grids) on the properties of members of the South Palo Duro Canyon Group. The South Palo Duro Canyon Group then identified the number of non-grid connected windmills, if any, located on the property of each of its members. No such windmills were identified for the property of Rancho Palo Duro, Ltd., but subsequent investigation has revealed that said property has four water-pumping windmills. The table below has been supplemented accordingly:

South Palo Duro Canyon Group Member	Non-grid Connected Windmills
Rojo Rio Ranch, Ltd.	The Rojo Rio Ranch has 6 water-pumping windmills for domestic and livestock use at various locations on the property. The average height is approximately 30 feet.
Rancho Palo Duro, Ltd.	The Rancho Palo Duro Ranch has 4 water-pumping windmills for domestic and livestock use at various locations on the property. The average height is approximately 30 feet.
Prairie Dog River Ranch, Ltd.	The Prairie Dog River Ranch has 2 water-pumping windmills for domestic and livestock use at various locations on the property. The average height is approximately 30 feet.
Goodnight Ranch Limited	The Goodnight Ranch has 5 water-pumping windmills for domestic and livestock use at various locations on the property. The average height is approximately 30 feet.
Shannon Burdett	The Burdette property has 2 water-pumping windmills for domestic and livestock use at separate locations on the property. The average height is approximately 30 feet.
William T. and Jimmie D. Price	The Price property has 2 water-pumping windmills for domestic and livestock use at separate locations on the property. The average height is approximately 30 feet.
