D) THE A-1 ROUTE SPLITS OUR SMALL RANCH IN HALF, THEREBY SIGNIFICANTLY DECREASING FUTURE APPRAISAL AND EFFECTING THE CURRENT TEXAS PARKS AND WILDLIFE PLAN. WE ARE UNDER OBLIGATION TO IMPROVE GAME IN THE AREA. THIS ROUTE DISPROPORTIONATELY SPLITS OUR PROPERTY WHERE IT FOLLOWS CURRENT RIGHT OF WAYS IN ITS REMAINDER. ALSO THIS ROUTE PASSES WITHIN 100 YDS - 150 YDS OF OUR HEADQUARTERS (BUILT IN 1912, RESTORED) CONSISTING OF HOUSE, 2 BARN, ONE WELL, ETC. (WEST OF THE LINE) ON THE EAST SIDE OF THE ROUTE THERE IS A PLAYA LAKE WITH GRASS...

...ecological value to this ranch and the area populations of deer, game birds, endangered species (i.e. Texas Horny Toad, Black Tarantulas, Palo Duro Kit Mouse) and indigenous plants that make up the area. Also on the east side of the route (where it will lay exactly, we do not know), we have constructed a new well to water our north trap (Approximate cost 20K). As Route A-1 currently lies, this is the relationship of it to sensitive areas on our ranch.

As you can see, this would greatly affect the ranch and ecological balance. Since I am of Native American heritage, I value the land and wildlife more than most. While we know progress is inevitable, there should be room for compromise.
