I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:

- I am a party to the case;
- I am required to respond to all discovery requests from other parties in the case;
- If I file testimony, I may be cross-examined in the hearing;
- If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

Please check one of the following:

- I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- One or more of the utility's proposed routes would cross my property.
- Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

Proposed Route DD will run the length of the property destroying any and all trees in its path. So in all fairness to the environment and all animals impacted by this power line, I think its only fair that all trees be replaced and maintained up to five years not less than three, by the power company. All trees planted by the power company that dies off will be replaced by the power company and will be maintained from time planted. All trees to be cut down will be measured at the base and will be replaced by tree or trees that equal the tree to be cut down. This is the only environmentally conscious thing to do!

My anger from this situation is very obvious and my plans to build my dream house on a portion of this property will be crushed. The sanctuary of this place from my stand point and all animals effected will be DESTROYED!

Proposed Route DD runs parallel to the fence line which would make a great portion of the property useless. The neighbors to the north (Hewitt) will be directly effected. The line will go near all three residence on the property, destroying all the natural privacy that we have.

Please consider another route, Thanks.
