Re: Docket No. 38324, SOAH Docket No. 473-10-4789, *Application of Oncor Electric Delivery Company LLC to Amend a Certificate of Convenience and Necessity for the Willow Creek - Hicks 345 kV CREZ Transmission Line in Denton, Parker, Tarrant and Wise Counties.*

To: Honorable Administrative Law Judge William Newchurch:

On June 28, 2010, Oncor filed its Affidavit Attesting to the Provision of a Copy of the Environmental Assessment and Routing Study to the Texas Parks and Wildlife Department. It has come to Oncor's attention that a copy of the letter sent to the Texas Parks and Wildlife Department was omitted from that filing. The omitted document is attached to this letter.

Sincerely,

Re: PUC Docket No. 38324: ***Application of Oncor Electric Delivery Company LLC to Amend a Certificate of Convenience and Necessity for a Proposed CREZ 345 kV Transmission Line in Denton, Parker, Tarrant and Wise Counties, Texas. (Willow Creek – Hicks CCN)***

In response to a request from the Public Utility Commission of Texas (Commission), please find enclosed a copy of the Environmental Assessment and Routing Study (EA) attached to the application of Oncor Electric Delivery Company LLC requesting certification for the above-referenced Willow Creek – Hicks 345 kV Transmission Line project, filed at the Commission on June 16, 2010, in Commission Docket No. 38324. This project concerns the request for approval to construct approximately 43 miles of new double-circuit 345 kV transmission line. The EA provides a detailed description of the data gathered and analyzed by Power Engineers, Inc., the environmental/routing consultant retained by Oncor for the proposed project, and the routing procedures and methodology utilized to delineate and evaluate alternative line routing.

Oncor respectfully requests to be copied on any correspondence that Texas Parks and Wildlife might send to the Commission regarding this project. Please contact me if you have any questions regarding this transmittal or the proposed project.

Sincerely,
