Re: Willow Creek-Hicks 345 KV Transmission Line Project
Docket # 38324, Segment EEE, Track # 159

Dear Chairman Barry Smitherman:

I strongly oppose the above referenced project. This project will have many negative effects on the families and homes of the Newark Ranch Community, including health risks and financial loss due to their home values decreasing. This project could destroy family lives and investments in this community. I expect that the Commission will let the homeowners of the Newark Ranch Community intervene and that the commission will give them a re-hearing. Thank you for your consideration.

Sincerely,

Donald O'Brien
