DO YOU WANT HIGH VOLTAGE LINES ON YOUR LAND AND IN YOUR BACK YARD?

LCRA plans to construct 180 foot utility towers unless
WE SPEAK UP!

Let the Public Utility Commission know that we don't want OUR Texas Hill Country Property unnecessarily destroyed. Tear out the petition below and FAX or Mail to Governor Perry (512) 463-1849; Office of the Governor, P.O. Box 12428, Austin, Texas 78711-2428 and Barry T. Smitherman (512) 936-7028, PUC, PO Box 13326, Austin, TX 78711-3326

Please make copies for others if you wish!

TOGETHER we CAN make a difference!

To the Texas Public Utilities Commission:

Please act as responsible stewards of our Texas Hill Country Landscape. Help us to maintain the beauty and integrity of our environment by doing the following:

1. Choose a path through Gillespie County on existing right-of-ways, avoiding eminent domain.
 2. Bury underground those transmission lines that cross privately owned, historical, and recreational land.
 3. Choose to upgrade existing structures, rather than erecting new monopoles or lattice structures.
- Please listen to the voices of your constituents, residents, land owners, and visitors of the Texas Hill Country. We do not want our beautiful landscape, native wildlife, and endangered species harmed by needless high lines.

To the Texas Public Utilities Commission:

Please act as responsible stewards of our Texas Hill Country landscape. Help us to maintain the beauty and integrity of our environment by doing the following:

1. Choose a path through Gillespie County that avoids residences and scenic views.
2. Bury underground those transmission lines that cross developed, populated, historical, and recreational areas of Gillespie County.
3. Minimize the visual impact to the maximum extent possible elsewhere in Gillespie County by using monopoles rather than lattice structures.
4. We demand that any potential harmful effects and health hazards associated with high-voltage transmission lines be reduced or minimized by increasing the distance between the 345kV transmission line easment and the structures we use from 500 feet to 1,400 feet.

CONCLUSIONS

To the Texas Public Utilities Commission:

Please act as responsible stewards of our Texas Hill Country Landscape. Help us to maintain the beauty and integrity of our environment by doing the following:

1. Choose a path through Gillespie County on existing right-of-ways, avoiding eminent domain.
2. Bury underground those transmission lines that cross privately owned, historical, and recreational land.
3. Choose to upgrade existing structures, rather than erecting new monopoles or lattice structures.

Please listen to the voices of your constituents, residents, land owners, and visitors of the Texas Hill Country. We do not want our beautiful landscape, native wildlife, and endangered species harmed by needless high lines.
