**DATE:** November 9, 2022

**RE:** Project No. 38578 – Energy Efficiency Implementation Project (EEIP) Meeting

---

The Public Utility Commission of Texas (PUC) oversees the energy efficiency programs delivered by the state's eight investor-owned electric utilities (IOUs). Tetra Tech, the PUC's evaluation, monitoring and verification contractor, is conducting a survey on behalf of the PUC to gather information that may be used to inform a potential rulemaking for the IOU energy efficiency programs. In preparation for a potential rulemaking, the survey results may also be used to create topic-specific working groups to discuss priority topics in more depth. The survey was sent to the EEIP listserv earlier this week.

**Thank you for your willingness to complete this important survey.**
