Executive Director

## *Public Utility Commission of Texas*

---

**TO:** Interested Persons

**FROM:** Therese Harris, Director, Director, Infrastructure Division

**DATE:** January 6, 2023

**RE:** Project No. 38578 – Energy Efficiency Programs Working Groups

---

The Public Utility Commission of Texas (PUCT) oversees the energy efficiency programs delivered by the state's eight investor-owned electric utilities (IOUs).

Tetra Tech, the PUCT's evaluation, measurement, and verification (EM&V) contractor, conducted a survey on behalf of the PUCT to gather information from stakeholders on a potential rulemaking for the energy efficiency programs. The survey results (filed in Project No. 38578, December 20, 2022) were used to create topic-specific working groups to discuss priority issues in more depth. We invite each company or organization to participate in one of the working groups. Working groups will begin in January, presenting a progress update at the March 2023 Energy Efficiency Implementation Project (EEIP) meeting hosted by the PUCT. We anticipate working groups to meet virtually biweekly.

**Thank you for your willingness to participate in a working group!**
