SOAT Docket No. 473-11-1266
RECEIVED
FEB - 8 PM 12:46
QUALITY CONTROL
FILING CLERK

Dear Sirs,

I am owner of the McEntire Ranch in Sterling County. Mett's new proposed transmission line crosses my land and in order to accommodate my neighbors, the Stewarts, the Fosters and McDaniels. I have agreed to the change that they asked for. You should be hearing from Allen Price, the Stewart's attorney, telling you about the change.

It was unanimous among all of these neighbors that we would like for the line to be built using monopoles rather than the old style lattice towers. My family has owned this ranch for over 100 years and I believe that everyone would rather look at the monopoles for the next 100 years.

In driving between Sterling City and Robert Lee over the divide you see both the monopoles and the lattice towers. There is a vast difference.

I would appreciate it very much if you would very seriously consider this request.

February 2, 2011

Most Sincerely,
Ruth McEntire Caldwell
