PUBLIC UTILITY COMMISSION
FILING CLERK

As an intervenor, I am requesting a hearing on the merits in PUC Docket No. 40684.

There are already two existing easements along my property line that is being considered on Segment T. One is a 10-foot easement to Guadalupe Valley Telephone Coop. dating from 1988. The other granted to AT&T in 2000 is a .0014 acre above-ground facility that would fall within the proposed route.

In addition, my son's residence is 217 feet from the proposed 80-foot wide right-of-way.

A third consideration is that approximately 500 feet of the proposed route would pass through old-growth forest that has never been cleared and includes a number of mature oak and other trees.

I would also lose control of approximately three acres of my 32.486 acre property, which, should it ever have to be sold, would greatly decrease its value.

Sincerely

Patricia R. Dodd
