NOTICE OF RATE CHANGE REQUEST

Entergy Texas, Inc. ("ETI") is a wholly owned subsidiary of Entergy Corporation ("Entergy"). On December 4, 2011, Entergy and ITC Holdings Corp. ("ITC") entered into an agreement to transfer ownership and control of the transmission business of ETI (and the other Entergy utility operating companies) to a subsidiary of ITC (the "Transaction"). ETI and ITC filed a joint application with the Public Utility Commission of Texas ("commission") for approval of the Transaction and related relief on February 19, 2013. That application has been assigned Commission Docket No. 41223.

If the Transaction is approved and after the Transaction closes, ETI will obtain transmission service from ITC and will pay for such service under the terms of the Midwest Independent System Transmission Operator's Open Access Transmission, Energy and Operating Reserve Markets Tariff. As a result, ETI is seeking to realign its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI filed an application with the commission on February 22, 2013, for approval of a transmission cost recovery rider ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No. 41235. Additionally, in Docket No. 41223, ETI and ITC have requested that the commission authorize ETI to defer any cost differential that occurs if the Transaction closes prior to the date that the Rider TCR is implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket No. 41235.

ETI's proposed Rider TCR is designed to result in an increase in revenues of approximately \$18 million per year, an increase of 1.3% in overall annualized revenue. ETI has requested that the commission make this change effective 35 days after its application was filed. All customers in ETI's Texas retail rate classes are affected by this request. The commission has jurisdiction to grant the relief sought in this proceeding pursuant to Public Utility Regulatory Act Sections 14.001, 32.001, and 36.209. ETI also seeks approval of the rider pursuant to P.U.C. SUBST. R. 25.241 governing the form and filing of tariffs.

Persons with questions or who want more information on the rate change application may contact ETI at Entergy Texas, Inc., Attn: Customer Service—Rider TCR Case, 350 Pine Street, Beaumont, Texas 77701, or call [1-800-366-9749 (select option 4; then 4; then 2; then 2; then 1)] during normal business hours. A complete copy of this application is available for inspection at the address listed above.

Persons who wish to intervene or comment upon the rate change proceeding should notify the Public Utility Commission of Texas (commission) as soon as possible.

A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326 and should reference Commission Docket No. 41235. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (888) 732-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136. The deadline in this proceeding is 45 days after the date the application was filed at the

("ITC") entered into an agreement to transfer ownership and control of the transmission business of ETI and other Energy utility operating companies to a subsidiary of ITC, the Transaction. ET and ITC

filed a joint application with the Public Utility Commission of Texas ("commission") for approval of the Transaction and related relief on February 19, 2013. That application has been assigned Commission Docket No. 41223.

If the Transaction is approved and after the Transaction closes, ETI will obtain transmission service from ITC and will pay for such service under the terms of the Midwest Independent System Transmission Operator's Open Access Transmission, Energy and Operating Reserve Markets Tariff. As a result, ETI is seeking to realign its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI filed an application with the commission on February 22, 2013, for approval of a transmission cost recovery rider ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No. 41235. Additionally, in Docket No. 41223, ETI and ITC have requested that the commission authorize ETI to defer any cost differential that occurs if the Transaction closes prior to the date that the Rider TCR is implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket No. 41235.

ETI's proposed Rider TCR is designed to result in an increase in revenues of approximately \$18 million per year, an increase of 1.3% in overall annualized revenue. ETI has requested that the commission make this change effective 35 days after its application was filed. All customers in ETI's Texas retail rate classes are affected by this request. The commission has jurisdiction to grant the relief sought in this

Commission of Texas (commission) as soon as possible.

A request to intervene or for further information should be mailed to the Public Utility Commission of Texas P.O. Box 13326, Austin, Texas 78711-3326 and should reference Commission Docket No. 41235. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (800) 782-3477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136. The deadline in this proceeding is 45 days after the date the application was filed in Docket No. 41223.

proceeding pursuant to Public Utility Regulatory Act Sections 14.001, 32.001, and 36.209. ETI also seeks approval of the Rider pursuant to P.U.C. SUBST. R. 25.241 governing the form and filing of tariffs.

Persons with questions or who want more information on the rate change application may contact ETI at Entergy Texas, Inc., Attn: Customer Service-Rider TCR Case 350 Pine Street, Beaumont, Texas 77701, or call [1-800-368-3749 (select option 4, then 4, then 2, then 2, then 1)] during normal business hours. A complete copy of this application is available for inspection at the address listed above.

Persons who wish to intervene in or comment upon the rate change proceeding should notify the Public Utility

LEGAL NOTICE

NOTICE OF RATE CHANGE REQUEST

Entergy Texas, Inc. ("ETI") is a wholly owned subsidiary of Entergy Corporation ("Entergy"). On
December 3, 2011, Entergy and ETC Holdings Corp. ("ETC") entered into an agreement to transfer ownership
and control of the transmission business of ETI (and the other Entergy utility operating companies) to a
subsidiary of ETC (the "Transmission Company"). ETI and ETC filed a joint application with the Public Utility
Commission of Texas ("Commission") for approval of the Transaction and related relief on February 19, 2013.
That application has been assigned Commission Docket No. 41223.

If the Transaction is approved and after the Transaction closes, ETI will obtain transmission service
from ETC and will pay for such service under the terms of the Midcontinent Independent System Transmission
Operator's Open Access Transmission, Energy and Operating Reserve Markets Tariffs. As a result, ETI is
seeking to realize its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI
filed an application with the Commission on February 22, 2013, for approval of a transmission cost recovery
plan ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No.
41225. Additionally, in Docket No. 41223, ETI and ETC have requested that the Commission authorize ETI to
defer any cost differential that occurs if the Transaction closes prior to the date that the Rider TCR is
implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket
No. 41225.

ETI's proposed Rider TCR is designed to result in an increase in revenues of approximately \$18
million per year, an increase of 1.3% in overall annualized revenue. ETI has requested that the Commission
make this change effective 15 days after its application was filed. All customers in ETI's Texas retail rate
classes are affected by this request. The Commission has jurisdiction to grant the relief sought in this
proceeding pursuant to Public Utility Regulatory Act Sections 14.001, 32.001 and 36.209. ETI also seeks
approval of the rider pursuant to P.U.C. SUBST. R. 25.341 governing the form and filing of tariffs.

Persons with questions or who want more information on the rate change application may contact
ETI at Entergy Texas, Inc., Attn: Customer Service - Rider TCR Case, 350 Pine Street, Beaumont, Texas
77701 or call (1-800-368-1749) select option 4, then 4, then 2, then 1, during normal business hours.
A complete copy of this application is available for inspection at the address listed above.

Persons who wish to intervene in or comment upon the rate change proceeding should notify the
Public Utility Commission of Texas (Commission) as soon as possible.

A request to intervene or for further information should be mailed to the Public Utility Commission
of Texas, P.O. Box 13726, Austin, Texas 78711-1326 and should reference Commission Docket No. 41225.
Further information may also be obtained by calling the Public Utility Commission at (512) 936-120 or (888)
782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the Commission
at (512) 936-7136. The deadline in this proceeding is 45 days after the date the application was filed at the
Commission.

LEGAL NOTICE

NOTICE OF RATE CHANGE REQUEST

Energy Texas, Inc. ("ETI") is a wholly owned subsidiary of Energy Corporation ("Energy"). On December 4, 2011, Energy and ETI Holdings Corp. ("ETIHC") entered into an agreement to transfer ownership and control of the transmission business of ETI (and the other Energy utility operating companies) to a subsidiary of ETIHC titled "Transvision". ETI and ETIHC filed a joint application with the Public Utility Commission of Texas ("Commission") for approval of the Transvision and related relief on February 19, 2013. That application has been assigned Commission Docket No. 41233.

If the Transvision is approved and after the Transvision closes, ETI will obtain transmission service from ETIHC and will pay for such service under the terms of the Midwest Independent System Transvision Operator's Open Access Transmission, Energy and Operating Reserve Markets Tariff. As a result, ETI is seeking to restate its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI filed an application with the Commission on February 22, 2013, for approval of a transmission cost recovery rider ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No. 41335. Additionally, in Docket No. 41233, ETI and ETIHC have requested that the Commission authorize ETI to defer any cost differential that occurs if the Transvision closes prior to the date that the Rider TCR is implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket No. 41335.

ETI's proposed Rider TCR is designed to result in an increase in revenues of approximately \$18 million per year on an increase of 1.1% in overall annualized revenue. ETI has requested that the Commission make this change effective 15 days after its application was filed. All customers in ETI's Texas retail rate classes are affected by this request. The Commission has jurisdiction to grant the relief sought in that proceeding pursuant to Public Utility Regulatory Act Sections 14.001, 32.001, and 56.209. ETI also seeks approval of the rider pursuant to P.U.C. SUBST. R. 25.241 governing the form and filing of tariffs.

Persons who wish to intervene or who wish more information on the rate change application may contact ETI at Energy Texas, Inc. Attn: Customer Service - Rider TCR Case, 150 Pine Street, Beaumont, Texas 77701, or call (1-800-368-3749 (toll-free) or 409-444-4444, ext. 2444, during normal business hours. A complete copy of this application is available for inspection at the address listed above.

Persons who wish to intervene or to comment upon the rate change proceeding should notify the Public Utility Commission of Texas (Commission) as soon as possible.

A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326 and should reference Commission Docket No. 41335. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (800) 752-8477. Hearing and comment periods for individuals with text telephones (TTY) may contact the Commission at (512) 936-7130. The deadline in this proceeding is 45 days after the date the application was filed at the Commission.

LEGAL NOTICE

NOTICE OF RATE CHANGE REQUEST

Energy Texas, Inc. ("ETI") is a wholly owned subsidiary of Energy Corporation ("Energy"). On
December 4, 2011, Energy and JTC Holdings Corp. ("JTC") entered into an agreement to transfer ownership
and control of the transmission business of ETI (and the other Energy utility operating companies) to a
subsidiary of JTC ("Transmission"). ETI and JTC filed a joint application with the Public Utility
Commission of Texas ("Commission") for approval of the Transaction and related relief on February 19, 2013.
That application has been assigned Commission Docket No. 41223.

If the Transaction is approved and after the Transaction closes, ETI will obtain transmission service
from JTC and will pay for such service under the terms of the Midwest Independent System Transmission
Operator - Open Access Transmission, Energy and Operating Reserve Markets Tariff. As a result, ETI is
seeking to realize its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI
filed an application with the commission on February 22, 2013, for approval of a transmission cost recovery
rider ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No.
41235. Additionally, in Docket No. 41223, ETI and JTC have requested that the commission authorize ETI
to defer any cost differential that occurs if the Transaction closes prior to the date that the Rider TCR is
implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket
No. 41235.

ETI's proposed Rider TCR is designed to result in an increase in revenue of approximately \$18
million per year, an increase of 1.3% in overall annualized revenue. ETI has requested that the commission
make this change effective 35 days after its application was filed. All customers in ETI's Texas retail rate
plans are affected by this request. The commission has jurisdiction to grant the relief sought in this
proceeding pursuant to Public Utility Regulatory Act Sections 14.001, 12.001, and 36.209. ETI also seeks
approval of the rider pursuant to P.U.C. SUBST. R. 25.241 governing the form and filing of tariffs.

Persons with questions or who want more information on the rate change application may contact
ETI at Energy Texas, Inc., Attn: Customer Service—Rider TCR, Case, 350 Pine Street, Beaumont, Texas
77701 or call (1-800-368-3749 (select option 4, then 4, then 2, then 1)) during normal business hours.
A complete copy of this application is available for inspection at the address listed above.

Persons who wish to intervene or be heard on the rate change proceeding should notify the
Public Utility Commission of Texas (commission) as soon as possible.

A request to intervene or for further information should be mailed to the Public Utility Commission
of Texas, P.O. Box 13336, Austin, Texas 78711-3326 and should reference Commission Docket No. 41235.
Further information may also be obtained by calling the Public Utility Commission at (512) 956-7123 or (888)
782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may contact the commission
at (512) 956-7136. The deadline in this proceeding is 45 days after the date the application was filed at the
commission.

**NOTICE OF RATE
CHANGE REQUEST**

Entergy Texas, Inc. ("ETI") is a wholly owned subsidiary of Entergy Corporation ("Entergy"). On December 4, 2011, Entergy and ITC Holdings Corp. ("ITC") entered into an agreement to transfer ownership and control of the transmission business of ETI (and the other Entergy utility operating companies) to a subsidiary of ITC (the "Transaction"). ETI and ITC filed a joint application with the Public Utility Commission of Texas ("commission") for approval of the Transaction and related relief on February 19, 2013. That application has been assigned Commission Docket No. 41235.

If the Transaction is approved and after the Transaction closes, ETI will continue to provide service for

ITC and will pay for such service under the terms of the Midwest Independent System Transmission Operator's Open Access Transmission, Energy and Operating Reserve Markets Tariff. As a result, ETI is seeking to realign its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI filed an application with the commission on February 22, 2013, for approval of a transmission cost recovery rider ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No. 41235. Additionally, in Docket No. 41223, ETI and ITC have requested that the commission authorize ETI to defer any cost differential that occurs if the Transaction closes prior to the date that the Rider TCR is implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket No. 41235.

ETI's proposed Rider TCR is designed to result in an increase in revenues of approximately \$18 million per year, an increase of 1.3% in overall annualized revenue. ETI has requested that the commission make this change effective 35 days after its application was filed. All customers in ETI's Texas retail rate classes are affected by this request. The commission has jurisdiction to grant the relief sought in this proceeding pursuant to Public Utility Regulatory Act Sections

14.001, 32.001, and 36.209. ETI also seeks approval of the rider pursuant to P.U.C. SUBST. R. 25.241 governing the form and filing of tariffs.

Persons with questions or who want more information on the rate change application may contact ETI at Entergy Texas, Inc., Attn: Customer Service-Rider TCR Case, 350 Pine Street, Beaumont, Texas 77701, or call [1-800-368-3749 (select option 4, then 4, then 2, then 2, then 1)] during normal business hours. A complete copy of this application is available for inspection at the address listed above.

Persons who wish to intervene in or comment upon the rate change proceeding should notify the Public Utility Commission of Texas (commission) as soon as possible.

A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326 and should reference Commission Docket No. 41235. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136. The deadline in this proceeding is 45 days after the date the application was filed at the commission.

NOTICE OF RATE CHANGE REQUEST

Entergy Texas, Inc. ("ETI") is a wholly owned subsidiary of Entergy Corporation ("Entergy"). On December 4, 2011, Entergy and ITC Holdings Corp. ("ITC") entered into an agreement to transfer ownership and control of the transmission business of ETI (and the other Entergy utility operating companies) to a subsidiary of ITC (the "Transaction"). ETI and ITC filed a joint application with the Public Utility Commission of Texas ("commission") for approval of the Transaction and related relief on February 19, 2013. That application has been assigned Commission Docket No. 41223.

If the Transaction is approved and after the Transaction closes, ETI will obtain transmission service from ITC and will pay for such service under the terms of the Midwest Independent System Transmission Operator's Open Access Transmission, Energy and Operating Reserve Markets Tariff. As a result, ETI is seeking to realign its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI filed an application with the commission on February 22, 2013, for approval of a transmission cost recovery rider ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No. 41235. Additionally, in Docket No. 41223, ETI and ITC have requested that the commission authorize ETI to defer any cost differential that occurs if the Transaction closes prior to the date that the Rider TCR is implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket No. 41235.

ETI's proposed Rider TCR is designed to result in an increase in revenues of approximately \$18 million per year, or an increase of 1.3% in overall annualized revenue. ETI has requested that the commission make this change effective 35 days after its application was filed. All customers in ETI's Texas retail rate classes are affected by this request. The commission has jurisdiction to grant the relief sought in this proceeding pursuant to Public Utility Regulatory Act Sections 14.001, 32.001, and 36.001. ETI also seeks approval of the rider pursuant to P.U.R. SUBST. R. 25.24 governing the form and filing of tariffs.

Persons with questions or who want more information on the rate change application may contact ETI at Entergy Texas, Inc., Attn: Customer Service—Rider TCR Case, 350 Pine Street, Beaumont, Texas 77701, or call [1-800-368-3749 (select option 4, then 4, then 2, then 2, then 1)] during normal business hours. A complete copy of this application is

Persons who wish to intervene in or comment upon the rate change proceeding should notify the Public Utility Commission of Texas (commission) as soon as possible.

A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, P.O. Box 15326, Austin, Texas 78711-3326 and should reference Commission Docket No. 41235. Further information may also be obtained by calling the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136. The deadline for the proceeding is 45 days after the date the application was filed with the commission.

NOTICE OF RATE CHANGE REQUEST

Entergy Texas, Inc. ("ETI") is a wholly owned subsidiary of Entergy Corporation ("Entergy"). On December 4, 2011, Entergy and ITC Holdings Corp. ("ITC") entered into an agreement to transfer ownership and control of the transmission business of ETI (and the other Entergy utility operating companies) to a subsidiary of ITC (the "Transaction"). ETI and ITC filed a joint application with the Public Utility Commission of Texas ("commission") for approval of the Transaction and related relief on February 19, 2013. That application has been assigned Commission Docket No. 41223.

If the Transaction is approved and after the Transaction closes, ETI will obtain transmission service from ITC and will pay for such service under the terms of the Midwest Independent System Transmission Operator's Open Access Transmission, Energy and Operating Reserve Markets Tariff. As a result, ETI is seeking to realign its revenue requirements to reflect such payments. To accomplish the rate realignment, ETI filed an application with the commission on February 22, 2013, for approval of a transmission cost recovery rider ("Rider TCR"). The application for approval of Rider TCR was assigned Commission Docket No. 41235. Additionally, in Docket No. 41223, ETI and ITC have requested that the commission authorize ETI to defer any cost differential that occurs if the Transaction closes prior to the date that the Rider TCR is implemented. ETI will also seek to recover these deferred costs through the Rider TCR approved in Docket No. 41235.

ETI's proposed Rider TCR is designed to result in an increase in revenues of approximately \$18 million per year, an increase of 1.3% in overall annualized revenue. ETI has requested that the commission make this change effective 35 days after its application was filed. All customers in ETI's Texas retail rate classes are affected by this request. The commission has jurisdiction to grant the relief sought in this proceeding pursuant to Public Utility Regulatory Act Sections 14.001, 32.001, and 36.209. ETI also seeks approval of the rider pursuant to P.U.C. SUBST. R. 25.241 governing the form and filing of tariffs.

Persons with questions or who want more information on the rate change application may contact ETI at Entergy Texas, Inc., Attn: Customer Service—Rider TCR Case, 350 Pine Street, Beaumont, Texas 77701, or call [1-800-368-3749 (select option 4, then 4, then 2, then 1)] during normal business hours. A complete copy of this application is available for inspection at the address listed above.
