RE: PROJECT NO. 41306 – *Application of CER Colorado Bend Energy Partners, LP for Amendment to its Power Generation Company Registration Pursuant to P.U.C. SUBST. R. 25.109*

### NOTICE OF APPROVAL

On March 18, 2013, CER Colorado Bend Energy Partners, LP (CER Colorado) filed an application for amendment to its power generation company (PGC) registration pursuant to P.U.C. SUBST. R. 25.109. The amendment reflects removal of Constellation Energy Commodities Group, Inc. (Constellation) as an affiliate under Exelon Corporation. On February 1, 2012, Exelon Corporation merged Constellation into Exelon Generation Company, LLC in order to consolidate wholesale energy operations into a single entity. CER Colorado is registered with the Commission under PGC Registration No. 20171.

On April 2, 2013, Commission Staff recommended that the amendment be granted because CER Colorado had satisfactorily completed the post-registration requirements under P.U.C. SUBST. R. 25.109 by notifying the Commission of any material change in the information provided on its registration form.

Consistent with Commission Staff's recommendation, CER Colorado's request to amend PGC Registration No. 20171 is approved to reflect removal of Constellation as an affiliate under Exelon Corporation and the Commission's records updated to reflect same.

SIGNED AT AUSTIN, TEXAS the 3<sup>rd</sup> day of April 2013.
