PUBLIC UTILITY COMMISSION
FILING CLERK

PROPOSED NORTH EDINBURG
TO LOMA ALTA DOUBLE-CIRCUIT
345-KV TRANSMISSION LINE

STATEMENT OF POSITION

TO THE HONORABLE ADMINISTRATIVE JUDGE:

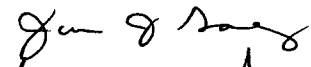

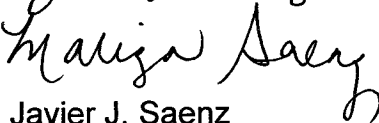

On behalf of myself, Javier J. Saenz and Mariza Saenz, we strongly oppose the construction or installation of any type of electric power transmission lines, or easements for such lines, on our land.

Our physical land description is 813 E. Moore Rd. San Juan Texas, Hidalgo County (Lot 9 Stuarts Addition, Conway Gardens). Our home, barn and livestock are located on this 14.7 acre tract. We use our land for agricultural use and to raise livestock which is a source of income for us.

Link 166 of the proposed routes would negatively impact the commercial, agricultural and residential value of our land and home. Also in researching high voltage power lines, our main concern is the health risks that it poses to our children who will be in direct contact to these lines. Our hard-earned land and home is not for sale, it is also an inheritance that we want to leave our children.

We strongly object to **Link 166** proposed by the Joint Applicants Electric Transmission Texas LLC and Sharyland Utilities L.P. We are requesting that instead of Link 166 another alternate route will be considered such as Link 32 or 3S.

Respectfully submitted,

Javier J. Saenz
Mariza Saenz
