Re: Loma Alta Transmission Line Statement of Testimony

Dear Public Utilities Commission member:

On behalf of the Martin Family, also known as the "Monte Cristo Road Partnership", I would like to express our hopes that the proposed "Cross Valley" transmission line will not cross our property. Our property includes the 12-acre section on the northwest corner of Highway 281 and Monte Cristo road in northeast Edinburg. We currently have a transmission line that runs east and west across our property; we feel we would be severely hampered from any meaningful development if our eastern border on the access road of Highway 281 is chosen as the site for this line. It would completely damage our chances to develop this *super prime* real estate. Hopefully, you understand our request and our reasons for not wanting this line on our property. Thank you for your time.

Respectfully,

Doug Martin

CROSS VALLEY PROJECT

This website contains the latest information regarding the North Edinburg to Loma Alta Transmission Line Project, part of a larger effort known as the Cross Valley Project. This line is being jointly developed by Electric Transmission Texas, LLC (ETT) and Sharyland Utilities, L P (Sharyland)

Below is a detailed map that provides the locations of alternative routing links for the project. Please zoom in and out on the map to see the routing links in more detail.

If you have any questions regarding the project, or need assistance in using the map, please call 1.855.395.7040 or send an email to contact@crossvalleyproject.com. You can also access other project materials [here](#)
