1. General Comments: It would be faster and cheaper (more direct routes) to utilize existing transmission line easements as much as possible. Also, the routes to the east of US Highway 281 must be significantly shorter than the western routes.
2. There is no room for an easement for Link 359.
3. There is an existing transmission line easement for Link 83.
4. Link 84a would be very disruptive for existing and planned housing development.
