Subject: PUC Docket No. 41606; Joint Application of Electric Transmission Texas, LLC and Sharyland Utilities, L.P. to Amend Their Certificates of Convenience and Necessity for the Proposed North Edinburg to Loma Alta Double-Circuit 345 kV Transmission Line in Hidalgo and Cameron Counties, Texas

Dear Filing Clerk,

Cameron County Irrigation District #2, (District), is a political subdivision of the State of Texas operating under Chapter 58 of the Texas Water Code. Its main scope is to provide irrigation water to farmland to approximately 58,000 acres in the San Benito and Rio Hondo, Texas areas, as well as to provide raw untreated water to three municipalities and rural water suppliers. Our delivery of water greatly depends on our continued use and maintenance of our open canals, resaca, and pipelines through our easements and rights-of-way.

The District is in receipt of the above subject matter, giving notice from Electric Transmission Texas, LLC and Sharyland Utilities, L.P. to amend its certificate of necessity to construct a proposed double-circuit 345 kV transmission line. The District hereby requests that in the amendment of the CNN, complete consideration be given to the District's approximate 33 open canals, 19 pipelines, and 2 resaca crossings. The proposed transmission line will traverse, allowing the District its continued current use of its easements and rights-of-way.

If you have any questions, please do not hesitate to contact me at (956) 399-2484 or at ccid2@swbell.net.

Sincerely,

  
Sonia Lambert
